P R E F A C E.

IN presenting a new edition of the COUNTY DIRECTORY OF SCOTLAND, the Publishers have to express their regret at the delay that has occurred in its publication. This has arisen, chiefly, from the number of additional names having greatly exceeded their expectation. The new features introduced, and the new matter, generally, which has been included, have also caused delay. They trust, however, that the increased utility thus imparted to the work will more than counterbalance any inconvenience occasioned by its appearance at a later date than at first announced.

The lists of the Clergy, Notaries Public, Medical Practitioners, Banks, &c., have been carefully revised and corrected, and to these have been added a complete record of the Registrars of Births, Deaths, and Marriages for each Parish and District in Scotland; the names of the various Telegraph Stations throughout the Country, and the population of every Town and Village of 300 Inhabitants and upwards, according to the Census of 1861.

The exceptions to the above are, as formerly, the cities of Edinburgh, Glasgow, Aberdeen, and Dundee, for which local Directories are published.

In the cases where they have been enabled to do so, the name of the Railway Station, when different from the postal address, has been given.

The Publishers have again to return their grateful thanks to the Noblemen and Gentlemen who have favoured them with information, and their renewed acknowledgments are also due to the Postmasters of Scotland, to whose continued kindness and valuable aid the measure of improvement which, it is hoped, will be found to characterise the present edition, is in no small degree to be attributed.

THE FARMER:

A WEEKLY ILLUSTRATED JOURNAL OF

The FARM, The GARDEN, FOREST, FIELD, and FIRESIDE.

THE FARMER (the First Series of which was established in 1843) is an Illustrated Weekly Journal specially devoted to Rural and Domestic Economy, &c., as comprised within the different departments of the FARM, the GARDEN, the FOREST, the FIELD, and the FIRESIDE.

The Farm Department contains, besides the usual Reports of Agricultural Meetings in all parts of the Kingdom, a variety of Original Articles by a large staff of eminent Contributors.

- (1.) **Notes of the Week.** Under this heading is comprised a complete epitome of all the Agricultural and Horticultural News of the Week, Home, Colonial, and Foreign.
- (2.) **The Breeder,** a series of articles relative to the leading Herds and Flocks of the Kingdom, of all breeds.
- (3.) **Farm Implements and Machines,** profusely illustrated with Engravings, the descriptive matter being supplied by Mr R. SCOTT BURN, one of the Authors of "The Book of Farm Implements and Machines."
- (4.) **The Veterinarian,** being practical articles on the General Treatment and Diseases of Horses, Cattle, Sheep, Pigs, and Dogs.
- (5.) **Farm Buildings, &c.,** comprising Farm Houses, Labourers' Cottages, Barns, Stables, Steadings, &c. Illustrated with Engravings.
- (6.) **The Poultry Yard,** with Weekly Notes by the Hon. Mrs ARBUTHNOTT (Mrs FERGUSON BLAIR), whose little volume on this subject, under the name of "The Henwife," is so well known and so highly appreciated.
- (7.) **The Apiarian.** For this department the assistance of an eminent "Bee Master" has for some time past been secured.
- (8.) **The Horticultural and Floricultural** departments, under the direction of experienced Editors, are fully illustrated with Engravings.
- (9.) **Arboriculture.** "The Farmer" is the only Journal in the Kingdom which devotes its attention to Arboriculture. This department contains Original Papers on the formation and management of Plantations, Pruning, Thinning, Draining, Enclosing, &c.; while due notice is taken of the introduction of Hardy Trees and Shrubs, special attention being devoted to Coniferæ. The whole profusely illustrated with Engravings.
- (10.) **The Field** section contains Original Articles by J. COLQUHOUN, Esq., author of "The Moor and the Loch," and other writers of note, on Hunting, Shooting, Coursing, Angling, Archery, &c.
- (11.) **The Naturalist.** An interesting series of Original Papers on the various departments of Natural History form an attractive section of the "Farmer."
- (12.) **The Fireside.** "The Farmer" has a special department devoted to Lady Contributors, in which appears regularly a series of articles on Household Management and the Domestic Economy of a Country House.
- (13.) **Our Library Table.** All new works of interest in every department of Literature are duly brought under the notice of the reader, particular attention being of course devoted to those books which may be considered of special interest to residents in the Country.
- (14.) **Notes and Queries** embrace all the departments, and information asked for is afforded in the fullest manner.
- (15.) **The Markets** include specially prepared reports of the London and Country Corn, Cattle, Wool, Seed, and Manure Markets, and a Weekly Review of the Foreign Corn Trade.

"THE FARMER" is published every Wednesday Morning, and contains 32 pages. The quality of the paper and printing is of a high-class character, and is not surpassed by any Newspaper in the Kingdom.

The Annual Subscription to "The Farmer" is 18s., or 22s. Free by Post. Specimen Copy sent to any address on receipt of Five Stamps.

 No. 6—Full Cabinet Case, Rosewood (carved) or Splendid Walnut, 17 0

Either of the above, with Hemmer and Feller, £1 extra.

** Directions, spare Needles, and the necessary Tools, accompany each Machine.

For family sewing in all its varieties, the work of this simple Machine is found perfectly strong and reliable; its hemming is done on the right side, to any width, and is neat and accurate beyond comparison. Felling, also, is readily performed by it, and we cannot see any requisite for family purposes which it cannot be made to meet more readily than any Sewing Machine in use. It is simple and easy to work, cannot be run in the wrong direction, nor is there the slightest difficulty in changing the needle; it is not liable to get out of order, and combines cheapness with its other merits."

Illustrated Price Lists, containing full detailed particulars and Testimonials, giving the experience of those who have thoroughly tested them in comparison with others, gratis, and post free.

TESTIMONIALS.

From ALEXANDER STUART, Esq., Rosebank House.—*Dundee, February 4, 1865.*

Mr ALEX. HENRY.—Dear Sir,—I have great pleasure in expressing my entire satisfaction with the WILLCOX & GIBB'S SEWING MACHINE I got from you in May last. I was not a little puzzled what Machine to decide upon, as so many different kinds are announced to be the best; but I felt assured from the experience you have had in Sewing Machines you would candidly advise me what was really the best. You said emphatically you could thoroughly recommend WILLCOX & GIBB'S; as of all the Machines you ever had it was undoubtedly the best for family use. I can assure you my confidence has not been misplaced, for the Machine speaks for itself, and exceeds by far my most sanguine expectations. It is simple, easily managed, has never got the least deranged, and the first needle is still in it. Mrs Stuart takes great delight in it, as it makes the family sewing quite a pastime. Since we got our Machine, several of our friends have likewise got a WILLCOX & GIBB'S, and in every case with the same satisfactory results. You are at perfect liberty to make whatever use of this you think proper.—I am, dear Sir, yours most truly,

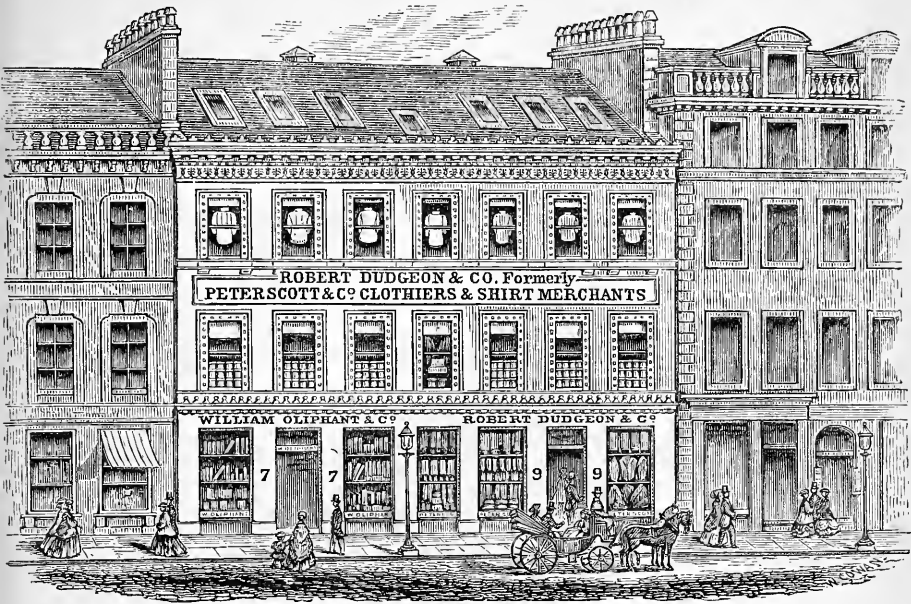

ALEX. STUART.

From Mrs EDWARD PARKER, the Cliff, near Newport, Fife.—*January 13, 1865.*

Mrs EDWARD PARKER feels great pleasure in expressing her warmest approval of Messrs WILLCOX & GIBB'S SEWING MACHINE, which she has used for five years, and found invaluable for all kinds of family sewing.

R. GRANT & SON, 54 PRINCES STREET, EDINBURGH.

NEILL & CO., PRINTERS,

OLD FISHMARKET, HIGH STREET, EDINBURGH,

Printers to Her Majesty's Stationery Office for the Law Courts and Judicial Establishments in Scotland.

MESSRS NEILL & CO. beg respectfully to inform Authors, Publishers, and others, that they execute every description of Letterpress Printing.

For LAW PAPERS, ACCOUNTANTS' REPORTS, and similar kinds of Work, which generally require to be all in Type at once, their stock is extensive to a very unusual degree.

For BOOKS, PERIODICALS, PAMPHLETS, &c., their Assortment of Types is not only very large, but new and varied to an extent, they believe, not surpassed in Scotland; while their Steam Machinery enables them to throw off large impressions with great rapidity.

For JOB, FANCY, and MISCELLANEOUS PRINTING, the most recently improved Ornamental productions in the Typographic Art are regularly added to their Stock.

With these facilities for executing all kinds of LETTERPRESS PRINTING with elegance, economy, and despatch, Messrs NEILL & Co. confidently solicit a continuance of that employment with which their Firm has been liberally favoured for upwards of a Century.

Estimates given for Books, Pamphlets, and Miscellaneous Printing.

Copies of their Guide to Authors in correcting the Press, with Specimens of the different sizes of Types, can be had on application.

EXTRACT FROM THE WEEKLY REVIEW, April 4, 1868.

“The best known firm in Edinburgh at that time (middle of last century) was the firm of Hamilton, Balfour, and Neill—the founders of the present still better known firm of Neill & Co., of the Old Fishmarket Close. This business was begun in 1749, by Patrick Neill, uncle of the late Dr Neill, whose name the firm still retains. As was common in those days, Patrick Neill took into partnership with him two enterprising booksellers; and as a contrast to the large capitals employed at the present day in large printing businesses, it is curious to note that the firm began the concern with a capital of £325—a sum which, however, is equivalent to £1000 in these days. Their office was situated in the Old College Buildings—now removed; and in 1769 they removed from the South Bridge to their present office in the High Street. In 1755, the Edinburgh Philosophical Society had been established for the encouragement of arts and manufactures. Two years after its establishment an edition of Terrence's ‘Comedies,’ in Latin, was printed by Neill & Co., for the accuracy and general excellence of which this Society awarded them a silver medal. The present proprietors are Alexander and Patrick Neill Fraser, who succeeded to a share in the business on their father's death in 1846. Dr Neill died in 1851, and the Messrs Fraser became the sole proprietors of the business, though they still carry it on under the old name of Neill & Co. This firm, although the oldest in Edinburgh, has not lost any of its vitality, but of late has rather renewed its youth—no fewer than one hundred and fifty persons being presently in its employment. Many important works have issued from its press, among which may be mentioned the recent edition of the ‘Encyclopædia Britannica,’ Dr Combe's works, and the ‘Transactions of the Royal Society of Edinburgh,’ which have been printed by Neill & Co. since its commencement in 1789. The ‘Acts of the General Assembly of the Church of Scotland’ have also been printed by this firm for upwards of a century.”

EXPLANATIONS.

As a general rule, the last word in the address of every letter, &c., should be the name of the Post-office from which the letter is to be delivered, and the Directory has been prepared with this view, giving in each case the postal address a letter should bear to ensure direct transmission to its destination. The names of the Sub Post-offices are added in *italics*, the name of the County being given only in the instances in which it is requisite or desirable that this should form part of the address ; as, for example, to distinguish places of the same names, as “Newburgh” in Aberdeenshire, and “Newburgh” in Fife, or places with names so similar as sometimes to be mistaken when not carefully written, as Largs in Ayrshire, and Largo in Fife.

Letters for Scotland, posted in England or Ireland, should have the name of the Country, or the letters “N. B.,” added to the other part of the address.

Throughout the *First* Part of the Directory, the postal address appears between the colons, after the name of the residence, and this is followed by the name of the owner or occupant. In the *Second* Part, this order is *reversed*, the name of the owner or occupant appearing first, followed by the residence and postal address.

The names of the Post Towns and Sub-offices in Scotland (distinguishing Money-Order, Savings-Bank, and Insurance and Annuity Offices) are inserted in the First Division of the Directory in the order in which they occur in the alphabetical arrangement.

II.—CIRCULATION OF LETTERS IN SCOTLAND.

1. The deliveries and despatches of letters, &c., in Scotland are, for the most part, regulated by the hours of the day and night mails from and to London, *via* the Caledonian Railway, excepting the counties of Berwick, Selkirk, and part of Roxburgh and Haddington, the south mails for which, as well as the local letters, are conveyed by the North-Eastern and North British Railways. The branch posts throughout the country, as a general rule, work *from* the arrival and *to* the despatch of one or other of the London mails, diverging from the various points on the main lines of communication between Carlisle and the south-west of Scotland, on the one hand, and Edinburgh, Aberdeen, and the northern counties on the other.

2. The first, or *Day* mail, leaves the General Post-Office, London, at 8.30 A.M., arriving at the intermediate stations between Carlisle and Aberdeen late the same night, or early the following morning, and at Inverness at 9 A.M. The return up mail, leaving Inverness at 12.40 P.M., and Aberdeen at 4.15 P.M., proceeds southwards from Carstairs Junction, with the mails despatched from Edinburgh and Glasgow, respectively, at 9.10 and 8.45 P.M., arriving in London at 10 A.M.

3. The second, or *Night* mail, leaving the General Post-Office, London, at 8 P.M., arrives at Dumfries, Glasgow, Stirling, Perth, and Dundee, in time for a morning or early forenoon delivery (in Edinburgh *both* the London mails are delivered together, the distribution commencing about 8 A.M.); at Aberdeen at 12.20 P.M.; at Inverness at 2.45 P.M.; and at Golspie (the northern extremity of the railway system in the United Kingdom), at 7.20 P.M. The return *up* mail is despatched from Golspie at 6 A.M.; from Inverness at 9.30 A.M.; from Aberdeen at 12.13 P.M.; and from Edinburgh and Glasgow at 5.50 and 5.43 P.M., respectively, arriving in London at 5.5 A.M. There is no delivery of letters in London on Sundays.

4. The postal communication between Fifeshire, Edinburgh, and the eastern counties of Scotland, and the north-eastern counties of England, is chiefly by the North-Eastern and North British Railways. The trains (conveying also the *London* mails for Berwickshire, Selkirkshire, and part of Roxburgh and Haddington shires) arrive in Edinburgh at 10.48 A.M. and 8.30 P.M., and depart at 1.45 P.M., and 5.30 P.M.

Irish Mails.

5. Letters between Scotland and Ireland are despatched and received by both the London mails, *via* Holyhead. Letters for Belfast and the north of Ireland, posted in Edinburgh up to 3.30 P.M., in Glasgow up to 6.15 P.M., and in the north in time for the London up night mail, are sent *via* Greenock and Belfast by steamer, leaving the former place at 9 P.M., daily, Sundays excepted. A return mail is received from Belfast and the north of Ireland at Greenock at 5 A.M., except on Monday mornings.

Mails for the Orkney Islands.

6. The mails are despatched daily, excepting Sunday, from Scrabster Pier, in Caithness, at 9 A.M., returning from Stromness at 4.45 A.M. The distance is 30 miles.

Mails for the Shetland Islands.

7. The mails for the Shetland Islands are despatched from Aberdeen every Friday evening, arriving at Kirkwall on Saturday, and at Lerwick on Sunday morning; returning from Lerwick to Aberdeen every Monday at 6 and 10 P.M. alternately, and from Kirkwall to Aberdeen every Tuesday morning.

Mails for Skye and the Hebrides.

8. The Skye mails are despatched by mail car, from Dingwall, at 11 A.M. daily (Sundays excepted) in summer, and on Mondays, Wednesdays, and Fridays in winter, arriving at Broadford about midnight, Portree at 5 A.M., and Dunvegan at 9.20 A.M. next day. The return mails, despatched from Dunvegan at 5 A.M., arrive at Dingwall at 3.30 the following morning, in time for the London night mail, thence at 8.57 A.M.

A bag for *Portree* is also conveyed by steamer from Greenock, twice a week in summer, and once in winter.

Mails for the Long Island are conveyed between Dunvegan in Skye, and Lochmaddy in North Uist, three times a week in summer, and twice a week in winter.

Mails to and from Lewis and Harris are conveyed by steamer between Greenock and Stornoway, twice a week in summer, and once a week in winter, leaving the former on Mondays and Thursdays at 5.40 P.M., and the latter on Mondays and Wednesdays. In winter the despatch from Greenock takes place on Thursday, and from Stornoway on Monday. There is also a postal communication with Lewis once a week in winter (when there is only one mail by steamer *via* Greenock), by sailing packet, between Stornoway and Aultbea, on the Ross-shire coast.

III.—RATES OF POSTAGE AND CONDITIONS OF TRANSMISSION.

Inland Letters.

9. The rate of postage to be prepaid is one penny for every half-ounce or fraction of half an ounce.

As a general rule, the postage, if not paid in advance, is double the foregoing; and if the payment in advance be insufficient, double the deficiency is charged. An inland letter, for example, weighing more than half an ounce and not exceeding one ounce, if bearing a penny stamp only, is, on delivery, charged twopence. On redirected letters, however, the charge for re-direction is the same, whether prepaid or collected on delivery—*viz.*, an additional single rate of postage.

Colonial and Foreign Letters.

10. The rates of postage on Foreign and Colonial Letters are subject to frequent changes, and for information as to them reference is recommended to be made to the "British Postal Guide," which is published quarterly, by command of the Postmaster-General, and may be had at any Post-office, price Sixpence.

Besides the "British Postal Guide," daily and weekly editions of a Postal Official Circular are issued, containing information respecting the sailing of packet-boats conveying mails, and notices of all alterations in the despatch or arrival of mails, in the rates of postage, whether Inland, Colonial, or Foreign, and in any other postal matter of public import.

"The Monthly Postal Hand-Book" (an abridgment of the "British Postal Guide") may also be had at any Post-office, price 1d.

Addresses to the Queen and Petitions to Parliament.

11. Petitions and addresses to Her Majesty, forwarded direct, are exempt from postage; and such petitions and addresses, as also petitions to either House of Parliament, if sent to a member of either House, are likewise exempt, provided they do not weigh more than two pounds, and are either without covers or are in covers open at the sides. No letter or other enclosure, however, must be inserted; and if one be found, such enclosure, unless it bear the proper number of postage stamps, will be charged as an unpaid letter.

Newspapers and other Periodicals bearing the Newspaper Stamp.

12. Although provision is made for forwarding newspapers, books, and money through the post, no one is compelled so to forward these articles; the exclusive privilege of the Post-office extending only to letters.

All periodicals, including newspapers, published in the United Kingdom, at intervals not exceeding thirty-one days, and which bear an impressed stamp or stamps denoting the stamp-duty (of the kind formerly confined chiefly to newspapers) may, under the following regulations, be sent and re-sent through the post, within the United Kingdom, free of postage:—

- 1st. Such publications are subject to the same restrictions as to the number of sheets and superficial extent as were formerly applicable only to newspapers properly so called.
- 2d. No publication, or portion thereof, can pass through the post unless the impressed stamp which it bears be a stamp of the value at least of one penny.
- 3d. The title and date of the publication must be printed at the top of every page.
- 4th. The publication must be folded in such a manner that the whole of the stamp or stamps, denoting the full duty, shall be exposed to view, and be distinctly visible on the outside; except that where there are more than two publications in the same cover it is considered sufficient if the stamps be so arranged that they can readily be examined. If this rule be infringed, a postage of one penny will be charged in addition to any other postage to which the publication, if properly folded, would be liable.
- 5th. The publication must not be printed on pasteboard or cardboard, or on two or more thicknesses of paper pasted together; nor must any pasteboard, cardboard, or such pasted paper be sent with it as a back or cover thereof, or otherwise.
- 6th. It must be posted within 15 days from the printed date of issue.
- 7th. It must have either no cover or a cover open at the ends: otherwise it will be charged as an unpaid letter.
- 8th. It must not contain any enclosure. If it do, the enclosure will be taken out and charged as an unpaid letter, together with an additional rate of one penny.
- 9th. It must have no writing or other mark thereon but the name and address of the person to whom it is sent; nor anything on the cover but such name and address, the printed title of the publication, and the printed name and address of the publisher or vendor who sends it. Thus if a newspaper, franked by a newspaper stamp, after having had the address of one person written upon the paper itself, be sent to another person, the first address must be cut off, obliteration not being sufficient. For any breach of this rule an additional postage of 2d. will be charged.
- 10th. If the publication be addressed to any person within the free delivery of the place where it is posted, it becomes liable to a postage of 1d., which must be prepaid by affixing a postage stamp. If this be not done, an additional postage of 2d. is charged.
- 11th. If the 1st, 2d, 3d, 5th, or 6th regulations be infringed, the publication will be charged as an unpaid book-packet, with the double book postage.
- 12th. It is suggested that every publication should have a notice to purchasers conspicuously printed, pointing out the necessity of exposing the stamp, or stamps, to view whenever the publication is sent through the post.
- 13th. Stamped publications can also be forwarded under the regulations of the Book Post; but when so sent the impressed stamp does not count as any part of the postage.

Newspapers sent abroad are liable to the 3d, 5th, 6th, 7th, 8th, and 9th of the foregoing regulations; and, before going abroad, the name of the newspaper must have been registered at the General Post-Office, London. Instead of requiring to have an impressed stamp (by which is meant the stamp specially used for newspapers), each newspaper, whether sent to a British colony or to a foreign country, is liable to the postage specified in the table of Colonial and Foreign Postage in the "British Postal Guide;" and this postage must be prepaid in stamps. Newspapers posted unpaid are retained at the Returned Letter Office for one week; and then, if the postage still remain unpaid, are destroyed. In all cases of newspapers going abroad, *the impressed stamp stands for nothing*. Publications registered for transmission abroad, although not strictly newspapers, are in all respects treated as such, so far as their transmission by the British office is concerned.

It is forbidden to introduce into Russia, through the post, political newspapers, in covers open at the ends or sides; and the only means by which persons residing in Russia can obtain newspapers from the United Kingdom is by subscribing for them at one of the Russian post-offices. This prohibition does not, however, extend to political newspapers, or any other publication, addressed to members of the Royal Family of Russia, the Imperial Ministers, or members of the diplomatic corps. The admission into Russia even of newspapers not of a political character, is permitted only when they are addressed to the house of some established bookseller, to the higher schools, to the Imperial Public Library, or to the Academy of Sciences in Russia. Printed prices current, however, as well as printed circulars, in covers open at the ends or sides, are allowed to be addressed to any persons residing in Russia.

Parliamentary Proceedings.

13. Printed proceedings of the imperial Parliament, sent without covers, or in covers open at the ends, may circulate within the United Kingdom at the rate of one penny for every quarter of a pound or fraction of a quarter of a pound.

The words "Parliamentary Proceedings" must be written or printed on the cover of the packet: otherwise it is treated as an ordinary book packet.

Prepayment, when the circulation is within the United Kingdom, is optional; and if it be made in part, the simple difference only is charged.

Parliamentary proceedings may be sent, under the Book Post privilege, to all the Colonies, and to those foreign states between which and this country there is a book post.

Book Post, including, when the foregoing special privileges are not claimed, Newspapers (with other periodicals) and Parliamentary Proceedings.

14. The following are the regulations of the Inland book post:—

1st. The postage is 1d. for every quarter of a pound, or fraction of a quarter of a pound.

2d. The postage must be prepaid by means of postage stamps affixed outside the packet or its cover. If the whole postage be not thus prepaid, the packet is treated in the manner described in Section 9.

3d. Every packet must be sent either without a cover, or in a cover open at the ends or sides; so as to admit of the enclosures being removed for examination. For the greater security of its contents, the packet may be tied at the ends with string; but in such case the Postmaster is authorised to cut the string, although, if he do so, he must again tie up the packet.

A book-packet may contain any number of separate books or other publications (including printed or lithographed letters), photographs (when not on glass, or in cases containing glass), prints, or maps, and any quantity of paper, parchment, or vellum; and the books or other publications, prints, maps, &c., may be either printed, written, engraved, lithographed, or plain, or any mixture of these; but no printed matter or prints can go, except such as may be printed on paper, parchment, or vellum. Further, all legitimate binding, mounting, or covering of a book, &c., or of a portion thereof, is allowed, whether such binding, &c., be loose or attached; as also rollers in the case of prints or maps, markers (whether of paper or otherwise) in the case of books; and, in short, whatever is necessary for the safe transmission of such articles, or usually appertains thereto; but the binding, &c., must not be sent as a separate packet, nor can patterns, or books of patterns (unless these consist merely of *paper*), be permitted.

No book packet may contain anything which is sealed, or otherwise closed against inspection; nor must there be any letter, nor any communication of the nature of a letter, whether separate or otherwise, unless the whole or such letter or communication be printed. Entries, however, merely stating who sends the books, &c., or to whom it is given, are not regarded as a letter. Indeed, as respects the name and address of the sender, writing is not only permitted, but recommended; so that, if the cover come off, or for any other reason the packet cannot be forwarded, it may be returned.

No book packet must exceed two feet in length, or one foot in width or depth; and if any packet of greater dimensions be presented at a post office, it cannot be received.

Any packet which is not open at the ends or sides, or has any letter or communication of the nature of a letter written in it, or upon its cover, is charged with the "unpaid" letter postage.

If a packet be found to contain any letter not wholly printed, whether closed or open, or any enclosure sealed, or otherwise closed against inspection, or any other unauthorised enclosure, the letter or enclosure is taken out and forwarded to the address on the packet, charged with the full postage as an unpaid letter, together with an additional rate; and the remainder of the packet, if duly prepaid with stamps, is then forwarded to its address.

If a packet be not sufficiently prepaid with stamps, but nevertheless bear a stamp of the value of one rate, it is forwarded, charged with the deficient book postage, together with an additional rate; but any packet which bears no postage stamp is charged with double the book postage.

In every case in which the postage chargeable under these regulations is greater than the letter rate, the latter postage is substituted.

It is the duty of Postmasters whenever they have ground for suspecting an infringement of any of the above conditions, and occasionally, even when there is no ground for suspicion, to open and examine book packets posted at or passing through their offices.

To prevent obstacles to the regular transmission of letters, a Head Postmaster may, when necessary, delay forwarding any book packet, not a newspaper, for a period not exceeding twenty-four hours beyond the ordinary time; and at Packet Offices the delay may, at the option of the Postmaster, be either for that period or until the despatch of the mail next after that by which the book packet ought otherwise to be forwarded.

The main business of the Post Office being the transmission of *letters*, the forwarding of books and newspapers, though an important, is only a secondary object, for which no arrangement can be made which would interfere with the quick and regular conveyance and delivery of letters. Books, therefore, which would be injured by being thrust into a bag and hurriedly pressed down like a bundle of letters should not be sent through the Post.

Colonial and Book Post.

15. Except that the rates of postage are higher, books can be sent to all British colonies and to the foreign countries to which there is a Book Post, on the same conditions as those of the Inland Book Post; and on those conditions books can also be sent to the countries enumerated in the "British Postal Guide," subject to the modifications there mentioned.

Inland Pattern and Sample Post.

16. The following are the rules of the Inland Pattern and Sample Post:—

- 1st. The postage is *2d.* for every quarter of a pound or fraction of a quarter of a pound.
- 2d. No packet of patterns or samples must exceed *24 oz.* in weight. Any packet above that weight is sent to the Returned Letter Branch.
- 3d. The postage must be prepaid by means of postage stamps.
- 4th. There must be no writing or printing on the packet or its cover in addition to the address of the person for whom the packet is intended, except the address of the sender, a trade mark and numbers, and the prices of the articles; otherwise the packet is treated as a letter.
- 5th. There must be no enclosure other than the samples themselves. The particulars which are allowed to be furnished under the preceding rule must in all cases be given, not on loose pieces of paper, but on small labels attached to the samples or the bags containing them. Any loose enclosure is taken out and forwarded to the address on the packet charged with the full postage as an unpaid letter, together with an additional rate of a penny.
- 6th. The patterns or samples must be sent in covers open at the ends, so as to be easy of examination. Samples, however, of seeds, &c., may be enclosed in boxes, or in bags of linen, or other material, fastened in such a manner that they may be readily opened; or in bags entirely closed, provided that they are transparent, so that the officers of the department may be able to satisfy themselves as to the nature of the contents. If this rule be infringed, the packet is treated as a letter.
- 7th. If a packet of patterns or samples be posted altogether unpaid, it is charged with double the postage which should have been prepaid. If a portion of the postage be prepaid, even although only a penny stamp be affixed, the packet is charged with the amount of the deficiency, together with an additional rate of twopence.
- 8th. In order to prevent any interruption to the regular transmission of letters, a packet of patterns or samples may, when it is necessary, be kept back by any head postmaster for twenty-four hours beyond the time when in the ordinary course it would be forwarded.
- 9th. The rule which forbids the transmission through the post of any article which might injure the contents of the mail bags or the officers of the Post Office is so far relaxed as to permit the transmission of scissors, knives, razors, forks, steel pens, nails, keys, watch machinery, metal tubing, pieces of metal or ore, and such like, as samples, provided that they be packed and guarded in so secure a manner as to afford complete protection to the contents of the mail bags and the officers of the Post Office, while at the same time the samples may be easily examined. If any packet containing such articles as these be posted which is found not to be sufficiently guarded, it is stopped, and a notice of its detention is sent to the person to whom it is addressed, or to the sender, who may then obtain it upon personal application; but the packet is charged with a fine equal in amount to the postage to which it was liable as a packet of patterns.
- 10th. In every case in which the postage chargeable under these regulations is greater than the letter rate, the latter postage is substituted.

Colonial and Foreign Pattern and Sample Post.

17. Patterns and samples can be sent at the rates inserted in the Postal Guide to such colonies and foreign countries as are there indicated. The conditions in these cases are for the most part the same as in the case of the Inland Pattern and Sample Post, the following being the only important exceptions:—

- 1st. A packet of patterns or samples sent to Portugal, Madeira, the Azores, Cape de Verdes, France, or to Turkey, Syria, or Egypt, by French packet, must not exceed *18 inches* in length, width, or depth; a packet to any other place abroad must not exceed *24 inches* in length or *12 inches* in breadth or depth.

- 2d. A packet of patterns or samples sent to Germany, Russia, Belgium, Turkey, Moldavia, Wallachia, &c., via Belgium, or to any place via Austria, must not exceed 8 ounces in weight, and the weight of a packet for Portugal, Madeira, the Azores, or Cape de Verds is limited to one pound.
- 3d. None of the articles named in rule 9, above, may be sent as patterns or samples to any place abroad, except the United States of America, Germany, Belgium, Holland, Denmark, Sweden, Norway, Turkey, Moldavia, Wallachia, Portugal, Madeira, the Azores, Cape de Verds, and the British Colonies, and not to these places when addressed "via France."
- 4th. Bags entirely closed, even though they be transparent, must not be used for the transmission of seeds to any foreign country except the United States of America, Holland and its possessions, Belgium, Denmark, Portugal and its possessions, and Austria (via France); and samples of intrinsic value must not be sent to foreign countries except the United States.

IV.—POSTAGE STAMPS.

18. Every Head Postmaster is required to keep, for sale to the public, a sufficient stock of the various postage labels in use, and of envelopes with the penny stamp embossed. The present labels are of the respective values of 1d., 2d., 3d., 4d., 6d., 9d., 10d., 1s., 2s., and 5s. Sub-postmasters are required to keep penny labels only, but they must procure for the public any stamps of higher value, or embossed envelopes, which may be required. The envelopes are made of four sizes—viz. $5\frac{1}{2}$ ins. \times $3\frac{3}{8}$ ins., $5\frac{1}{2}$ ins. \times 3 ins., $4\frac{3}{4}$ ins. \times $2\frac{3}{4}$ ins., and 4 ins. \times $2\frac{1}{2}$ ins. They are all sold at the following rates:—

s.	d.		s.	d.		s.	d.
1	for 0		4	for 0		8	for 0
2	,, 0		6	,, 0		12	,, 1
	$2\frac{1}{4}$			$6\frac{1}{4}$			$1\frac{1}{4}$

Every Rural Messenger is authorised to sell postage labels and embossed envelopes at the same price at which Postmasters are empowered to sell them; and when any person applies to him for postage labels, the messenger must either supply them, or (if he have none in his possession) must, without extra charge, receive the postage in money, and, on his arrival at the Post Office, obtain labels for it, and affix them carefully to the letters.

Prepayment of inland letters, newspapers, books, patterns, &c., must be by labels or embossed stamps, but letters to the colonies and foreign countries may be prepaid in money. British postage stamps, though available for all letters going out of this country, are not, as a general rule, available for letters *coming into it*.

By using embossed envelopes all risk of the stamp being detached may be avoided; but when labels are used, they should be examined to see that they firmly adhere, and the envelopes to which they are affixed should not be too highly glazed, since if the stamps fall off, the letters are charged with postage, and that at the unpaid rate; while, as respects letters addressed to many places abroad, the transmission is altogether stopped.

Labels should be placed on the front—that is, the address side—of the letter, and upon the right-hand upper corner. On re-directed letters, however, care should be taken not to place fresh stamps over the stamps which have been previously used.

Receipt or other Inland Revenue Stamps cannot be used in place of postage stamps, nor can postage stamps which have been torn, cut, or otherwise rendered imperfect, be used.

All Postmasters in the United Kingdom at whose Offices Money Order business is transacted, are permitted, though not compelled, to purchase postage stamps from the public, provided the stamps be not soiled or otherwise damaged, at a charge of $2\frac{1}{2}$ per cent.; the charge, however, never being less than one halfpenny. Under this arrangement the payments are as follows:—

s.	d.	for stamps of the value of	s.	d.
1	$7\frac{1}{2}$	1	1	8
3	3	,,	3	4
4	$10\frac{1}{2}$,,	5	0
6	6	,,	6	8
9	9	,,	10	0

and so on.

No separate stamps can be purchased. They must in all cases be presented in strips containing at least two stamps adhering to each other.

In all transmissions of stamps by post care should be taken to fold them in rather thick paper, so that the contents may neither be seen nor felt through the cover.

V.—REGISTRATION.

19. By the prepayment of a fee of fourpence, any letter, newspaper, book, or other packet may be registered to any place in the United Kingdom or the British Colonies.

Registered letters must be prepaid as regards both postage and registration fee: in the case of inland letters such prepayment must be by stamps; but in the case of foreign letters it may be either in money or in stamps.

The registration of a packet makes its transmission much more secure; and the loss of a registered packet is a very rare occurrence. Nevertheless, by Act of Parliament, the Post Office is not responsible for the safe delivery of registered packets, though any officer who may neglect his duty on this point will be called to strict account. Sent in *unregistered* letters, valuable articles are exposed to risk; and the department cannot in any way undertake the safe conveyance of such packets. All inland or colonial letters, therefore, which unquestionably contain coin, even though they be posted without registration, are treated as registered, and charged on delivery with a double registration fee of eightpence in addition to the ordinary postage; and any such letters which cannot be registered in time to be forwarded by the Mail for which they are posted are detained for the next despatch.

Every letter to be registered should be presented at the window, and a receipt obtained for it, and should on no account be dropped into the letter-box. If, contrary to this rule, a letter marked "Registered" be dropped into the letter-box, it will, *if directed to any place in the United Kingdom or the British Colonies*, be liable to a registration fee of eightpence, instead of the ordinary fee of fourpence.

At all Post Offices the latest time for posting registered letters on the payment of the ordinary fee is entered in the notice exhibited in the Office window; but, upon payment of a late fee of fourpence, in addition to the ordinary registration fee, at all provincial Head Offices, letters, whether inland, foreign, or colonial, may be registered after the hours specified, until the closing of the letter-box for each despatch (exclusive of the time during which late letters are received), or until the office is closed for the night.

No Letter Carrier, Rural Messenger, or other servant of the Post Office is allowed to carry a letter for any person to be registered.

Parliamentary Notices.

20. Parliamentary Notices may be forwarded through the post under the following regulations:—

- 1st. The words "Parliamentary Notice" must be legibly printed on the face of the letter; and in order to secure the speedy return of any notices which may be undelivered, the name and address of the solicitor issuing such Parliamentary Notice should also be legibly printed or written on the face of the letter; though this is not imperative.
- 2d. These notices, so far as Scotland is concerned, must be posted either at the General Post Office in Edinburgh, or at the chief office at Glasgow, Aberdeen, and Inverness.
- 3d. All notices which by the standing orders of either House of Parliament are required to be served on or before the 15th December, must be posted not later than the 12th December, unless the 12th fall on a Sunday, when they must be posted not later than the 11th; but those notices which, by the same orders, may be served after the 15th, may be posted after the 12th of that month.
- 4th. The postage chargeable on these notices, and the registration fee of sixpence on each, must be prepaid by stamps.
- 5th. The notices must be posted at the Post-office window, accompanied with duplicate lists of the addresses; the notices being arranged, for the convenience of comparison, in the order of the list. These lists will be examined by the officer in attendance at the window; and if they correspond with the addresses, he will sign and stamp every sheet of each list. One of the duplicate lists will then be returned to the person who brought the letters, and the other forwarded to the Secretary, General Post Office, London.

The hours for receiving such notices are the same as those for the registry of ordinary letters, unless they be presented at such a time as to interfere with the other duties of the office, in which case the Postmaster may appoint any other time within the next twenty-four hours for receiving the same; provided that, when the notices are to be served on or before the 15th December, such arrangement do not delay the posting beyond the 12th. Re-directed Parliamentary Notices are liable to an additional rate of postage like letters.

The senders of Parliamentary Notices should, if possible, arrange on the previous day with the Postmaster as to the most convenient time for posting them, and state the probable number.

VI.—DELIVERY.

21. Letter Carriers and Rural Messengers are prohibited from distributing any letters, newspapers, &c., whether before beginning their rounds, whilst on their rounds, or after they may have completed them, except such as have passed through a Post Office. Nor are they allowed to receive any payment beyond the postage for the delivery or collection of any letter or newspaper, nor to deviate from the route laid down for them. The prohibition, however, from receiving payment in addition to the postage does not extend to Christmas gratuities.

No person living within the town free delivery, or within the limits of a rural post free delivery, unless he rent a private box, can claim to have his letters delivered at the office window if a delivery by Letter Carrier or a despatch by messenger is about to take place; but letters which arrive by a mail after which there is no immediate delivery by Letter Carrier or messenger, may be obtained by any person on application at the office window, so long as the office is open for delivery.

In order to prevent the additional trouble which is sometimes caused by letters being directed to a Post-office, although for persons residing within a free delivery from such office, but who have no private box, a Postmaster is authorised, when such letters arrive by a mail for which there is a delivery from house to house, to refuse to deliver them at the window (even though initials may be substituted for the name) and to send them out by the Letter Carrier; except such as are addressed to the military in barracks.

Any person can have a private box who is willing to pay the appointed fee. Where this fee goes to the Revenue, it is generally fixed at one guinea per annum, to be paid in advance, and for a period of not less than a year; and where it goes to the Postmaster, he may demand the same terms, though he may, at his option, take less. The same also, in most cases, are the terms for a private bag, except that, in addition, there is the cost of the bag itself, and a charge for conveyance, the maximum of the latter being half-a-guinea per annum, if the bag be conveyed by a Rural Messenger, and two guineas if by a contractor for a mail cart or other horse post. If more than one Rural Messenger, or more than one contractor, take part in the conveyance of a private letter bag, each is allowed to charge the full amount of the fee for his service. The weight of a private bag, when empty, is limited to one pound. As the service of a private bag may possibly delay the despatch of the general bag, none are allowed without the permission of the Surveyor. If a private letter bag, made up at one Post Office, be left at another to be called for, or to be delivered from thence, the postmaster at such other office may make a charge for his trouble: this charge is usually 5s. per annum. Any person residing within the limits of a town free delivery and renting a private letter bag, is considered to have the accommodation of a private box at the Post Office, as well as a bag, and is liable to the full charge for both bag and box.

VII.—MONEY ORDERS.

22. The public are recommended, when applying for Money Orders, to use printed "Application Forms," which save time, and afford greater security than verbal messages against mistakes. These Forms are supplied gratuitously at all Money Order Offices.

The commission on inland Money Orders is:—

On sums not exceeding £2	.	3d.
Above £2 and "	"	5 . 6d.
" 5 "	"	7 . 9d.
" 7 "	"	10 . 1s.

No order is allowed to contain a fractional part of a penny.

With the subjoined exceptions, no Money Order can be issued, unless the applicant furnish, in full, the surname and at least the initial of one Christian name, both of the remitter and the payee, together with the remitter's address:—

1st. If the remitter or payee be a peer or a bishop, his ordinary title is sufficient; and the usual designation of a firm is sufficient, except in the case of a company trading under a title which does not consist of the names of the persons composing it, as the "Carron Company."

2d. When the remitter notifies that the order is to be paid through a bank, it is left to his option to give or withhold the name of the payee.

When application is made for a Money Order payable in London, or at any other town where there is more than one Money Order Office, the remitter should say at which of such offices he wishes it to be paid; otherwise the order can be cashed at the Head Office alone. The nearest Money Order Office to any street in London may be ascertained by referring to the street list published in the Postal Guide.

An order once issued cannot be cancelled; and should repayment or transfer to a different office or alteration of name be required, the remitter must apply to the paying Postmaster according to the directions printed on the back of the order.

In order to enable the remitter to obtain an acknowledgment of the receipt of a Money Order before the money is paid, it is arranged that he may make his order payable ten days after date, provided that, in the presence of the Postmaster, when he obtains the order, he affix thereto, in the space after the request C., a penny receipt stamp, and write his signature across the stamp.

When an order is presented for payment (otherwise than through a bank) the Postmaster has first to see that the signature of the payee be as full as the name given in the advice, and be not in any way inconsistent therewith. He has then to call on the applicant to give the name of the remitter, and if the reply be correct, the order will be paid, unless the Postmaster have good

reason for believing that the applicant is neither the rightful claimant, nor deputed by him. When an order is paid through a bank it is sufficient that it be receipted (without regard to any discrepancy between the signature and the name in the advice, or to whether the receipt is given by the payee himself or by another person), and that it be presented (crossed with the name of the receiving bank) by some person known to be in the employment of the bank.

The holder of a Money Order is always at liberty to direct, by crossing it, that the order be paid through a bank, even though its payment was not originally so restricted; and when the order is thus crossed, the question put on the presentation of an ordinary Money Order is dispensed with.

Money Orders do not require a receipt stamp.

Payment of an order, issued and payable in the United Kingdom, must be obtained before the end of the second calendar month after that in which it was issued (for instance, if issued in January it must be paid before the end of March): otherwise the order becomes lapsed, and a new order is necessary, for which a second commission is charged. The period for payment of orders issued in the United Kingdom and payable in any colony authorised to transact Money Order business, including Gibraltar and Malta, is six months; and orders granted at those places on the United Kingdom are also payable during six months after that in which they were issued. A person presenting a lapsed order is furnished with a copy of a printed notice headed "Lapsed Money Orders," containing directions how to proceed. If the order be not paid before the end of the twelfth calendar month after that in which it was issued (for instance, if issued in January, and not paid before the end of next January), all claim to the money is lost.

No application can be entertained for compensation for alleged injury from the non-payment of a Money Order at the expected time.

After once paying a Money Order, by whomsoever presented, the Office is not liable to any further claim.

To guard against any person, even if he obtain possession of a Money Order, fraudulently getting it cashed, the remitter is recommended,—

- 1st. When he is well known to the payee, to sign the letter enclosing the order with his initials only.
- 2d. When this is not the case, either to make the order payable ten days after date, or to register the letter enclosing it, or to make the order payable through a bank.
- 3d. When it is not considered expedient to adopt either of these courses, to send the remitter's name (without a knowledge of which payment cannot be obtained) in a separate letter from that containing the Money Order; although this latter precaution is much less effective than either of the others.

Payment of an order cannot be demanded on the same day as that on which the order was issued.

In case of the miscarriage or loss of an inland money order, a duplicate is granted on a written application (with the necessary particulars, and enclosing the amount of a second commission in postage stamps) to the Controller of the Money Order Office of England, Scotland, or Ireland, as the case may be, where the original order was issued; and if it be desired to stop payment of an inland order, a similar application with a like enclosure of postage stamps, must be made to the Controller of the Money Order Office of that part of the kingdom in which the order is payable. If alteration in the name of the payee or remitter of an inland money order should be required, application must be made by the remitter to the Postmaster of the office at which the order was issued, and a second commission must be paid. Should transfer of payment of an inland order from one office to another in the United Kingdom or repayment of the amount of an order be required, an application enclosing the order must be made to the Postmaster at whose office the order is payable, who will transmit in exchange a new order payable at the place desired, but for a less sum than the original order by the amount of the second commission charged for the re-issue. Proper printed forms for making applications in all these cases may be obtained at any Money Order Office, and full instructions on the subject will be found printed at the back of the Money Order. Whenever, on complaint being made, it is found that the necessity for an application, entailing the payment of a fresh commission, is attributable to the Post Office, the charge will be remitted to the applicant and imposed on the officer in fault.

A Postmaster is required to give information how to apply for a duplicate order, &c., and must furnish the prescribed form of application. If payment of an order be refused in consequence of the replies to the questions respecting the remitter not corresponding with the entries in the advice, or of a difference in the name in the receipt, the applicant for payment should communicate with the remitter, and request him to apply personally to the issuing Postmaster.

No Letter Carrier, Rural Messenger, or other servant of the Post Office is bound to procure a Money Order for any person, or to obtain payment for one; but such services are not forbidden.

Money Orders are issued at all Money Order Offices in the United Kingdom of Great Britain and Ireland on Money Order Offices in the COLONIES and in ALEXANDRIA, BAHIA, BUENOS AYRES, CONSTANTINOPLE, GIBRALTAR, MALTA, MONTE VIDEO, PERNAMBUCO, and RIO JANEIRO, at a charge equal to threefold the commission on Inland

Money Orders, and on Money Order Offices in the Colonies, at a charge equal to fourfold such commission.

A list of colonial offices authorised to issue and pay Money Orders can be seen at any Post Office transacting money order business, and will be found in the "British Postal Guide."

VIII.—POST OFFICE SAVINGS BANKS.

23. These Banks are established under the provisions of the Act 24 Victoria, cap 14, intitled "*An Act to grant additional facilities for depositing small Savings at Interest, with the Security of the Government for the due Repayment thereof*," and are open daily during the hours appointed for Money Order business for the receipt of deposits of One Shilling, or any number of shillings, subject of course to the limitations of amount prescribed in the Acts previously in force for Savings Banks. Whatever facilities or advantages were given by the previously-established Savings Banks to individual depositors, whether male or female, and to Friendly Societies, Charitable Societies, and Penny Banks, are given by the Post Office Savings Banks, which, however, besides being open daily for many hours, have these additional advantages—that a depositor may make his deposits in each or any of them, and may withdraw his money from any one of them, no matter where he may originally have deposited it. Thus, if he began to deposit at Glasgow, he may make his subsequent deposits in Dumfries, Stirling, Aberdeen, or any other place having a Post Office Savings Bank, to which his occupation may carry him, and he may withdraw all, or part of his deposits, at any place having a Post Office Savings Bank, where it may be convenient to him to receive it.

Depositors in the previously-established Savings Banks may, if they please, transfer the whole of their deposits, irrespective of amount, from those banks to the Post Office Savings Banks. The Act before quoted has provided that these transfers may be effected without the necessity for any cash payment; and depositors wishing to make such transfers should apply to the Trustees or Managers of the Savings Bank in which their money is placed for a certificate under the 10th clause of the Act 24 Vict., cap. 14, of the amount due to them. This certificate, which is not to be accompanied by cash, may be presented to the Postmaster at any Post Office Savings Bank, who will receive it as if it were money, and credit the depositors accordingly.

IX.—GOVERNMENT INSURANCES AND ANNUITIES.

24. The Postmaster-General is empowered, under the Act 27 & 28 Victoria, cap. 43, to insure the lives of persons of either sex between the ages of 16 and 60 for not less than £20 or more than £100. He is also empowered, under the same Act, to grant immediate or deferred annuities of not more than £50 on the lives of persons of either sex, and of the age of 10 years and upwards. The persons whose lives are insured, or to whom annuities are granted, by the Postmaster-General, have direct Government security for the payment of the money at the proper time.

Certain Post Offices (the names of which may be obtained at any Post Office) have been opened for the receipt of proposals for the insurance of lives and the purchase of annuities, and forms of proposal, with full instructions for filling up and delivering these forms, may be obtained at these Post Offices.

Tables of the premiums to be charged for the insurance of lives, for the grant of immediate annuities, for the grant of deferred annuities or deferred monthly allowances, without return of purchase money, and for the grant of deferred annuities or deferred monthly allowances, with return of purchase money, have been printed, and may be seen at the Post Offices which have been opened for the receipt of proposals. These tables may also be obtained of Messrs Eyre and Spottiswoode, London. The price of the tables for the insurance of lives and the grant of annuities without return of purchase money is 3½d. The price of the tables for the grant of annuities with return of purchase money is 2d. If sent by post, 5d. is charged in the one case, and 3d. in the other.

X.—MISCELLANEOUS.

25. The Post Office is not responsible for any injury which books or other articles forwarded by post may sustain; and the public, therefore, should not employ the Post Office for the conveyance of anything likely to suffer injury, unless such things be sufficiently protected. Neither is the Post Office responsible for any loss or inconvenience which may arise from the mis-sending, mis-delivery, loss, &c., of a letter or any other postal packet.

With the following exceptions, no Inland or Foreign letter or packet can be forwarded by the post which is more than two feet in length, or one foot in breadth or depth. The exceptions are:—

- 1st. Packets to or from any of the Government Offices or departments, or Public Officers.
- 2d. Petitions or addresses to the Queen, whether directed to Her Majesty, or forwarded to any member of either House of Parliament.

3d. Petitions to either House of Parliament forwarded to any member of either House.

4th. Printed Parliamentary proceedings.

No information can be given respecting letters which pass through a Post Office except to the persons to whom they are addressed, nor can the address of any private person be given; and in no other way is official information of a private character allowed to be made public.

Postmasters are not required to correspond with the public on official matters. All applications, therefore, which require an answer by letter should be addressed to the Secretary, at the General Post Office.

Postmasters are not allowed to return any letter or other packet to the writer or sender, or to any one else, or to delay forwarding it to its destination according to the address, even though a request to such effect be written thereon.

If a letter be forwarded under cover to any Postmaster with a request that he will re-post it at his office, such request cannot be complied with; and the letter and application respecting it are sent to the Returned Letter Office.

Except where the Surveyor may deem a longer interval necessary, late letters, &c., are received till within five minutes of the despatch of the mails; although no office is kept open merely for this purpose after ten o'clock at night.

No late letters, &c. (except Government letters) are forwarded by the mail preparing for despatch unless prepaid, and that by stamps, so as to include both the ordinary postage and the late letter fee; but in the case of letters directed to any department of Government, it is sufficient to prepay the fee.

Every re-directed letter or other postal packet is liable to an additional postage (at the prepaid rate) unless the re-direction be made by an Officer of the Post Office, to a place within the same free delivery as the original address. Thus, on a paid or unpaid letter weighing not more than half an ounce, re-directed either by an Officer of the Post Office or by any one else to a different postal district in the United Kingdom, or from one place to another in the same postal district, provided these places be not in the same free delivery, an additional postage is levied of one penny; or, if the weight be more than half an ounce but does not exceed an ounce, of twopence; and so on. Upon a book thus re-directed to any other postal delivery in the United Kingdom, and weighing not more than four ounces, an additional postage of one penny is levied, or if the book weigh more than four ounces but not more than eight ounces, an additional postage of twopence; and so on.

A registered letter, when re-directed, is only liable to the same additional charge as an ordinary re-directed letter. If, however, instead of being taken back to the Post Office to be dealt with as a registered letter, it is dropped into the letter box as an ordinary letter (the word "registered" not having been erased, or having been erased in pencil only), it becomes liable to the same treatment as any other letter marked "registered" and found in the letter box, and is surcharged with a registration fee of eightpence, minus the value of any stamps already affixed for the registration.

Letters which have once been posted addressed to commissioned officers in the army, navy, or ordnance, or to non-commissioned officers, private soldiers, or seamen employed on actual service in any of Her Majesty's colonies, or on any foreign station, and who, before receiving the letters, may have started on their return home or to another station, may be re-directed to such officers, private soldiers, or seamen when these have removed *upon service*, and will be delivered to them without any charge for re-direction. The same privilege extends to the letters of non-commissioned officers, private soldiers, and seamen, re-directed from one part of the United Kingdom to another, or from the United Kingdom to a place abroad, provided the original postage is prepaid and the letters do not exceed half an ounce in weight; but no such privilege is allowed with regard to letters for a *commissioned* officer re-directed from one part of the United Kingdom to another, or (if posted in the United Kingdom) re-directed to a place abroad.

A Postmaster is not bound to re-direct letters for a person temporarily leaving his home, and not having a private bag or box, unless the house be left uninhabited, or the letters would be delayed in their transmission by being sent to the house to be re-directed there. In all cases of re-direction, a written authority, duly signed by the person to whom the letters are addressed, must be sent to the Postmaster.

Every Postmaster is required to have a notice conspicuously placarded, giving information respecting the hours of attendance, the despatch and delivery of letters, &c.

At all offices which are open on Sunday the public are allowed, during the time they are so open (viz. from 9 to 10 in the morning and one other hour), to prepay foreign and colonial letters, to purchase postage stamps, and to have letters registered; and all other duties are performed as usual, except Money Order, Savings Bank, Insurance, and Annuity business, which, on that day, is wholly suspended.

At no provincial town in Scotland is there more than one delivery on Sunday or the Sacramental Fast Days, and any person is at liberty to prevent even this delivery, so far as relates to himself, as shown by the following regulations:—

1st. Any person can have his letters, &c., retained in the Post Office on Sunday by addressing

to the Postmaster a written request, duly signed to that effect; and such request will be held to include newspapers and all other postal packets, even such as may be marked "immediate," as no distinction can be allowed.

- 2d. No letters, &c., the non-delivery of which by the Letter-carrier on Sunday has been directed, can be obtained from the Post Office window on that day.
- 3d. Private box-holders have the option of applying for letters at the office while it is open for delivery on Sunday, or of abstaining from so doing, as they may think proper; but no person can be permitted to engage a private box for Sunday only.
- 4th. To prevent the inconvenience and confusion which would arise from frequent changes in these instructions, no request can be entertained unless it extend to a period of at least three months, nor be withdrawn, even after the lapse of that time, without a week's notice.

By the Act 1st Victoria, cap. 36, sec. 2, any person conveying (otherwise than by the Post) a letter not exempted from the exclusive privilege of the Postmaster-General incurs a penalty of £5 for every letter, and £100 for every week the practice is continued. The Sender also incurs a penalty of £5 for every letter, with full costs of suit.

The exclusive privilege of the Postmaster-General is confined strictly to letters, and does not therefore extend to newspapers, books, patterns, or money; all of which may be legally conveyed by other means. The following kinds of letters also need not be sent through the Post:—

- 1st. Letters sent by a private friend, to be delivered by such friend to the person to whom they shall be directed:
- 2d. Letters sent by a messenger on purpose, concerning the private affairs of the sender or receiver thereof; commissions or returns thereof, and affidavits and writs, process or proceedings, or returns thereof, issuing out of a Court of Justice:
- 3d. Letters sent out of the United Kingdom by a private vessel (not being a packet boat).
- 4th. Letters of merchants, owners of vessels of merchandise, or of the cargo or loading therein, sent by such vessels of merchandise, or by any person employed by such owners for the carriage of such letters, according to their respective directions, and delivered to the respective persons to whom they shall be directed, without paying or receiving reward or profit for the same in anywise:
- 5th. Letters concerning goods or merchandise sent by common carriers, to be delivered with the goods which such letters concern, without hire or other advantage for receiving or delivering such letters:
- 6th. No person is authorised to make a *collection* of such excepted letters for the purpose of sending them in the manner above described.

The following persons are expressly forbidden to carry a letter, or to receive or collect or deliver a letter, even though they shall not receive hire or reward for the same:—

- 1st. Common known carriers, their servants or agents, except a letter concerning goods in their carts or waggons, or on their pack horses; and owners, drivers, or guards of stage coaches:
- 2d. Owners, masters or commanders of ships, vessels, steamboats, or boats called or being passage or packet boats, sailing or passing coastwise, or otherwise between places within Great Britain or Ireland, or between, to, or from ports within Her Majesty's dominions or territories out of the United Kingdom, or their servants or agents, except in respect of letters of merchants, owners of ships, or goods on board:
- 3d. Passengers or other persons on board any such ships, vessels, steamboat, passage or packet boat:
- 4th. The owners of or sailors or others on board a ship or boat passing on a river or navigable canal within the United Kingdom or other Her Majesty's dominions.

XI.—SUGGESTIONS TO THE PUBLIC, &c.

26. Facility is given to the Post Office in the discharge of its daily duties, and greater security afforded to the public, by careful attention to the following recommendations:—

- 1st. To post all letters, &c., as early as practicable, especially when sent in large numbers, as is frequently the case with newspapers and circulars. The trouble of the office is much diminished if circulars, before being posted, be tied in bundles with the addresses all in one direction.
- 2d. To see that when several letters are sent by the same person for registration, they be accompanied with a list (in duplicate) of the addresses, one list to be retained at the Post Office, and the other, when signed, to be returned by the bearer. This practice (which is adopted by many bankers) saves time both to the public and to the department.
- 3d. To make the address legible and complete, giving the name of the post town, and if there be more than one town in the kingdom of that name, or if the post town be not

well known, adding the name of the county. Letters posted in one part of the United Kingdom and intended for another part (as, for example, letters posted in England and intended for Scotland) should have the name of the country to which they are sent added to the other part of the address. The number of the house too, if in a street, is a great assistance. It must not be supposed that because a letter will eventually reach its destination without a number, the omission is not a cause of hesitation and delay in the process of sorting for delivery; and when such small delays occur again and again, they tend greatly to retard the general distribution. In the case of letters for places abroad the name of the *country* as well as the town or city should be given in full. Attention to this latter precaution will often assist in deciphering the name of the town or city, and will prevent the letter from being mis-sent when there are towns of the same name in different countries. For example:—a letter intended for London in Western Canada, North America, but simply addressed “London, W.C.,” would be forwarded to the West Central District of the Metropolis in England, and thus be delayed. The address of every letter to a place abroad should end with the name of the country.

- 4th. To see that every letter, newspaper, or other packet sent by post is securely folded and fastened. Sealing-wax will not easily adhere to the gummed portion of an envelope. When postage stamps are remitted, they should be enclosed in paper sufficiently thick to prevent them from being seen or felt through the cover. It should be remembered that every packet has to be several times handled, and that even when in the mail bag it is exposed to pressure and friction. Unless, therefore, the article be light and pliant, it should be enclosed in strong paper, linen, parchment, or some other material which will not readily tear or break. The observance of this precaution is especially necessary whenever any fragile articles of value are forwarded by post. These should always be enclosed in a wooden or tin box. Owing to neglect of these precautions many postal packets burst open, causing much trouble to the department and risk to the owners, it being sometimes impossible to determine to what packet a particular article belongs.
- 5th. To fasten the covers of newspapers firmly, so as to prevent the contents from slipping out.
- 6th. In affixing the stamps, to wet slightly the corner of the envelope and the front, as well as the gummed side of the stamp, and then gently to press the stamp till it is firmly fixed. The practice of dipping the stamp in water is objectionable, because, unless the stamp be immediately withdrawn, and care be taken by the use of blotting paper or some other absorbent to remove any excess of moisture, the gum may be washed off, or the stamp may be rubbed off the letter. By the use of envelopes bearing an *embossed* stamp (which can be obtained at any Post Office) all risk of the stamp being detached may be avoided.
- 7th. When dropping a letter, newspaper, &c., into a letter box, always to see that the packet falls into the box and does not stick in its passage.
- 8th. Never to send money or any other article of value through the post, except either by means of a money order or in a registered letter. Any person who sends money or jewellery in an unregistered letter, not only runs a risk of losing his property, but exposes to temptation every one through whose hands his letter passes, and may be the means of ultimately bringing some clerk or letter-carrier to moral ruin. Every letter which contains money or other valuable article, even when registered, ought to be securely sealed.
- 9th. To provide a letter-box.
- 10th. In case of removal to furnish the particulars of the new address in a letter, properly signed, either to the Secretary or to the Letter Carrier of the district.
- 11th. When complaint is made of letters or newspapers lost, miscarried, or delayed, to furnish information as precise as possible regarding all the facts of the case, and to enclose whatever documents may throw light upon it. The day and hour at which the letter or newspaper was posted, as well as the office at which and the person by whom this was done, should always be stated; and, when possible, the cover or wrapper in an entire state should be sent, in order that the place of delay may be ascertained by an examination of the stamps. Cases frequently occur in which complaint is made against the Post Office, and redress expected, although little or no means of tracing the error, and of guarding against a repetition of it, are supplied by those who alone are able to do so.
- 12th. To see that every letter contains the full address of the writer, in order to ensure the return of the letter if the person to whom it is directed cannot be found. A much larger portion of the undelivered letters could be returned if the names and addresses of the senders were always fully and plainly written inside or embossed on the envelopes.

13th. To return to the Post Office all letters addressed to Club Houses, Hotels, and other places where letters are received to be called for, as soon as it has become evident that such letters will not be called for by the persons to whom they are addressed. Such letters should, under ordinary circumstances, be returned to the Letter Carriers within a month of their delivery, if not called for.

Complaint is sometimes made of delay in carrying into effect intended improvements. It should, however, be borne in mind that changes in machinery so extensive and intricate as that of the Post Office must be made cautiously and with much previous consideration. The arrangements of the service, even in districts widely separated, are so much dependent upon each other, and economy of time (one of the first objects in all postal organisation), requires that they should be so nicely adjusted that no alteration can safely be made without a close examination of all its consequences and completeness of preparation; for as, on the one hand, experience proves that almost every improvement shows the way to further amendment, so on the other, it will be found that an ill-considered change, though it may give a partial advantage in one quarter, generally leads to dislocation and confusion in others. This, of course, involves a reference to every district or community which may be affected—often distant from the metropolis, and entails the necessity of reports from various quarters, which must be considered, compared, and in many instances tested by experiment, before a safe decision can be arrived at. Even then negotiations with railway companies or coach proprietors may have to be entered into, tenders invited, new contracts made, and old contracts requiring notice of termination got rid of, before the decision can take effect.

The proper execution of a great portion of these duties not only requires great diligence and precision on the part of the officers intrusted with them, but is also (and it is this which more immediately concerns the public) a work of time. Hence it has frequently happened that the necessity for a change has been recognised in this office, that investigation has been set on foot, and measures of improvement have been taken before any public demand has arisen, such demand even having been suggested by these very proceedings.

A frequent error is to assume that the Postmaster-General has some control over the delivery, charge, and other postal arrangements in the colonies, and even in foreign countries; whereas, except at Malta and Gibraltar, the British Post Office is as powerless abroad as the Foreign or Colonial Post Offices are here.

Another misconception which occasionally causes trouble and disappointment, consists in assuming that a discretionary power can be intrusted to subordinate officers in special circumstances to remit penalties or overcharges. Cases will undoubtedly occur in which strict observance of a general rule may inflict more or less injustice upon individuals, and where a dispensing power immediately at hand might furnish a remedy; but in an establishment as large and as widely spread as the Post Office there will always be many subordinate officers, some of them carrying on their duties beyond the easy reach of any supervising authority, who are not fit depositaries of such a power, affecting as it would to a great degree the public revenue. It therefore becomes necessary to lay down definite and precise rules from which no departure can be allowed, except under sanction of the Postmaster-General; and in the few instances in which these rules press hardly, appeal must be made to the General Post Office. It may be added that in many instances even such appeal is necessarily fruitless, the Postmaster-General being bound to a particular course by positive law.

In regard to the expense of railway conveyance, the public naturally supposes, as such conveyance is the cheapest for ordinary purposes, and as the charges made for the carriage of the mails are subject to arbitration, that it must be the cheapest for postal purposes also; and indeed, so cheap as to warrant the free use of the railways either as substitutes for other conveyance or for the multiplication of mails. The fact, however, is very different. Except in certain instances where companies have entered into arrangements securing to the Post Office the use of their trains on moderate, though still highly remunerative terms, railway conveyance, with all its acknowledged advantages, has proved much more expensive than that which it has superseded. In truth, under any modification of the law that could be made without injustice to the railway companies, the especial establishment of trains at hours unsuited to ordinary traffic (a measure often pressed upon the Postmaster-General) must remain a source of very heavy expense, such as can be justified only by commensurate advantage to the public.

THIS COMPANY was Established at Edinburgh in 1825. The Acts of Parliament 2d and 3d Gul. IV. cap. 81, and 8th and 9th Vict. cap. 75, also the 22d and 23d Vict. cap. 27, have been granted for the purpose of its constitution and for the regulation of its affairs. It has been conducted with much success, which may be attributed not only to its extensive and influential connections, but more particularly to the liberality of its dealings, and to the constant attention paid by the Directors to the adoption of improvements and facilities in connection with the contract of Life Assurance. The AMOUNT of NEW ASSURANCES effected during the Quinquennial Period from 1860 to 1865 was upwards of THREE MILLIONS EIGHT HUNDRED THOUSAND POUNDS Sterling, and the TOTAL SUMS ASSURED now amount to upwards of SIXTEEN MILLIONS Sterling. THE COMPANY'S INCOME, which is rapidly increasing, is upwards of SIX HUNDRED and NINETY THOUSAND POUNDS Sterling per annum. The ACCUMULATED FUND, which is upwards of THREE MILLIONS EIGHT HUNDRED THOUSAND POUNDS Sterling, is invested in Government Securities; Loans on the Security of Land, by Bond and Mortgage; Landed Property; Advances to the Company's Policyholders, and other undoubted Securities. These investments were specially investigated, on the occasion of the Division of Profits in 1865, by a Committee of Professional gentlemen appointed for the purpose; whose report, which was entirely favourable, will be found in the Company's Prospectus. The COMPANY'S PROFITS have been divided on Seven occasions—1835, 1840, 1845, 1850, 1855, 1860, and 1865. The next Division will take place in 1870, and at intervals of Five Years thereafter.

The Leading Feature

of this Old Established and well-tried Society is its Mutual Principle, which secures to the Policyholders the Division of the whole Profits among themselves, without any deduction for Dividends to Shareholders, as in Life Assurance Companies of the Proprietary Class. This single circumstance retains for Distribution among the Policyholders Large Sums of Money which would otherwise be lost to them.

The Largest Division of Profits

ever made by the Society was that declared at the Annual Meeting of Members held on 24th May last. The Profit realised during the seven years ending 31st December 1866 amounted to no less than **£834,183, 10s. 1d.**, which sum was divided among the Policyholders in the manner fully explained in the Report read at the Meeting, copies of which may be had, *free of charge*, on application.

The New Business of 1866

much exceeded that of any year in the past history of the Society, Policies having been issued during the year covering the following amounts—

New Sums Assured,	£1,236,000
New Annual Premiums,	40,900

The above figures do not include any business reassured with other Offices, and are therefore not subject to the usual abatements on that Account.

Security enjoyed by the Members, and their future Prospects.

The Balance Sheet and details of the Valuation of the whole Liabilities of the Society published in last Report fully and clearly make known to all Actuaries and skilled persons the Entire Financial Condition of the SCOTTISH WIDOWS' FUND; while to the general public they afford the means of ascertaining for themselves the character of the security and prospects of future advantage which such a financial condition presents. *By no other means than the publication of such information as is contained in the Balance-Sheet and Valuations referred to can the real position of a Life Assurance Institution be made known.*

Resources of the Society.

Annual Revenue exceeds	£600,000
Invested Funds exceed	4,400,000

PERSONS NOW EFFECTING ASSURANCES

will do so at a time when the Society has acquired a select Business of the highest class, the growth of upwards of Fifty Years of uninterrupted prosperity, and has reached an *annually-increasing* rate of progress which has never been exceeded in the history of Life Assurance in this country. Moreover, although the Society never took over the Funds of any other Office by amalgamation, its *Life Assurance Fund* is larger than that of any similar Institution. Its Financial Power secures for the Society the best and most remunerative Investments which the country affords. The natural effect of these and the other circumstances above referred to must be the realisation of a *rate of Profit* unattainable by Offices less favourably circumstanced; and when it is kept in view that the **WHOLE Profit** actually realised is divided among the Policyholders alone, the conclusion necessarily follows that *Life Assurance could not be conducted under more favourable conditions for Policyholders than it is in the Scottish Widows' Fund.*

THE DIRECTORS invite attention to the advantages which are offered by this Company to the Public, and which combine **Perfect Security, Moderate Premiums, and Liberal Participation in Profits.**

The conditions in regard to **Foreign Residence and Travel** are highly favourable to the Assured, and Policies are declared Indisputable on any ground whatever at the end of five years from their date, provided satisfactory evidence of age has been produced.

Attention is requested to the **Half Premium System without Debt or Interest**, which offers peculiar advantages to persons of moderate but progressive Incomes. Assurances either for the whole term of Life, or payable at a given Age, or at Death if previous thereto, *can be effected at half-rates for the first five years without any debt being created.*

When any Party assured for the whole term of life, and having paid three equal annual Premiums, desires to discontinue the Assurance, he is entitled either to a liberal allowance in Cash, or, if preferred by him, to a new Policy for an equivalent sum **free of future Premiums.**

The great success of the Company is shown by the result of the business in recent years as under—

Average of the 5 years 1855-1859, 396 Policies issued, assuring	£227,612.
Average of the 5 years 1860-1864, 404 Policies issued, assuring	£274,522.
Year ending 20th January 1865, 563 Policies issued, assuring	£360,032.
Year ending 20th January 1866, 713 Policies issued, assuring	£402,488.
Year ending 20th January 1867, 895 Policies issued, assuring	£511,455.

THE Directors submit the claims of this Institution to the support of the Public, on the strength of its large Subscribed Capital and Accumulated Funds, and the success which has hitherto attended its operations, both as regards the extent and the character of the Business transacted.

FIRE DEPARTMENT.

The Company grants Insurances against Fire, on nearly every description of property, in Great Britain, the Colonies, and most Foreign Countries, at the current rates of Premium.

LIFE DEPARTMENT.

The Life Business of the NORTHERN, which embraces every description of risk contingent upon the duration of human life, is divided into two distinct branches:—

1st, The Non-participating Branch,

The Assured in which receive no Additions to their Policies, the Premiums being calculated on the lowest scale consistent with safety; and

2d, The Participating Branch,

In which the whole Profits, less a fixed percentage of one-tenth of the Premiums for Management and Guarantee of the sums assured, belong to the Policyholders; and, in reckoning these Profits, the Company is, under its new Act of Parliament (1865), precluded from deducting anything beyond what is actually paid away as Commission to Agents. The necessity felt by all purely Mutual Societies of setting aside a portion of their Profits to form a Guarantee Fund is in this way avoided, and at the same time that economy, which is the boast of the Mutual System, is ensured.

Detailed Prospectuses, Fire and Life Proposals, and every information, may be obtained at the Offices or Agencies of the Company throughout the Kingdom.

THE CALEDONIAN is the oldest Scottish Insurance Company. Its experience extends over more than sixty-two years, and the success which has attended its operations during this period affords a guarantee of stability which cannot be given by any younger company.

LIFE DEPARTMENT.

ADVANTAGES OFFERED BY THE CALEDONIAN INSURANCE COMPANY.

ABSOLUTE SECURITY that the sum assured will be paid at death. All undue restrictions removed, and a liberal interpretation given to Policies, so as to render them as serviceable as possible to the Holders.

LIBERAL PARTICIPATION IN PROFITS combined with moderate Premiums. The Bonuses have been increased at each successive division of Profits; and it is worthy of notice that greater benefits have been obtained by those assured by the Caledonian, than by the members of the most extensive Mutual Offices.

FIRE DEPARTMENT.

Nearly all classes of risk are insured by the Company at rates as low as are consistent with safety. Claims are adjusted with liberality and settled with promptitude. Losses by gas explosions in property insured with the Company admitted, and property burnt by lightning paid for. All the advantages of the reduced duty given.

DISTRIBUTION OF PROFITS.

Nine-tenths or ninety per cent of the Profits are divided every seven years among the participating Policyholders. Policies of five years duration becoming claims between one division of Profits and another are entitled to an intermediate Bonus.

The Company's system of Division of Profits, while it does not exclude younger Policyholders from their fair share in the allocation of Bonus, reserves a much larger proportion for those whose Policies have existed for a long period, and who have themselves attained an advanced age.

Five Periodical Investigations have already been made, and the results of the equitable principle of Distribution are brought out in the very large Bonuses which attach to cases fulfilling these conditions, and are fully illustrated by the undernoted examples.

THE RATES OF PREMIUM

are moderate, and will bear favourable comparison with those of other first-class Offices.

FIFTH DIVISION OF PROFITS.

THE BUSINESS of this ASSOCIATION embraces every beneficial form of LIFE ASSURANCE ANNUITIES, and ENDOWMENTS for OLD AGE.

The NEW ASSURANCES effected during 1867 amounted to £422,529; and the NEW PREMIUMS to £15,093. INVESTED FUNDS at Christmas 1867, £640,335.

NINE-TENTHS of the PROFITS are divided among the Assured every FIVE YEARS, in the form of REVERSIONARY BONUS ADDITIONS, which have never been at a lower rate than ONE POUND TEN SHILLINGS per cent. per annum on the Sums Assured by WHOLE LIFE POLICIES. The steady maintenance for upwards of TWENTY-FIVE YEARS of this highly satisfactory RATE of BONUS is commended to the attention of persons effecting Assurances for FAMILY PROVISION.

The FIFTH QUINQUENNIAL INVESTIGATION will take place at Christmas 1870, when Participating Policies effected during 1868 under full annual Premiums will be entitled to THREE YEARS' BONUS ADDITIONS.

INSURANCES against Loss by Fire are effected by the PHENIX COMPANY upon every description of Property, in every part of the World, on the most favourable Terms.

The promptitude and liberality with which its engagements are always met by this Company are well known, and the importance of its relations with the Public may be estimated from the fact that since its establishment it has paid more than *Nine Millions Sterling* in discharge of Claims for Losses by Fire.

N.B.—The private fortune of every individual Shareholder in the Company is responsible for its engagements; and no person insured in this Office is liable for the Losses of others, as is the case in Contribution Societies.

Duty on every description of Property, 1s 6d per cent. Prompt and liberal Settlement of Losses.

LIFE ASSOCIATION OF SCOTLAND.

FOUNDED 1838.

Empowered by Royal Charter 1841, and by Act of Parliament 1853.

FOR LIFE ASSURANCE AND ANNUITIES.

INVESTED FUNDS, £1,150,000 Sterling.

ANNUAL INCOME upwards of £260,000 Sterling.

ONE distinguishing feature of this Institution is, that the

BONUSES from PROFITS

are applied on a Special System for the Policyholder's

Personal Benefit and Enjoyment during his Lifetime,

either at an early or later stage of the Policy.

There are also many Regulations in favour of the Assured as regards **INDISPUTABILITY, NON-FORFEITURE, OCCUPATION, and RESIDENCE**; the Policies in Class B. being almost without any Conditions or Restrictions. Further, a Life Assurance in this Class not only secures a provision for representatives at Death, early or otherwise, but in the event of average length of Life, is one of the most **LUCRATIVE INVESTMENTS** to which savings can be applied.

IN CLASS A.—The Bonuses from Profits are applied in Cash, at an early stage of the Policy, in effecting

A LARGE REDUCTION OF PRESENT OUTLAY.

IN CLASS B.—The Profits are allocated in unusually large

Bonus Additions to the Sum Assured

in the event of average length of life; the Policyholder having the Option of an Equivalent

PROVISION FOR OLD AGE BY A LIFE ANNUITY

of an Important Amount, or by One Cash Payment.

Thus, after the average period of life, the Assurance, instead of being an expense and a burden to the Policyholder, may be made a source of **INCOME** to himself **DURING** the **REMAINDER** of his **LIFE**; while at the same time the Sum Assured will remain untouched for his Representatives or other purposes.

This system is peculiar to the Life Association of Scotland.

LIFE ANNUITIES may be purchased on favourable terms.

IN THIS SOCIETY ALONE Members can assure with right to share in **WHOLE PROFITS** for **MODERATE PREMIUMS**. In other Offices they may assure at Rates as low, but without any prospect of Additions; or they may obtain the right to Profits, but only by payment of excessive Rates.

ITS ADVANTAGES, as compared with those of other Offices, are—

A larger original Assurance for the same Premium, with the prospect, to good lives (for whom exclusively the whole Profits are reserved), of eventually receiving very considerable additions.

Thus, a Policy for £1200 or £1250 may at most ages be had from the first for the Premium elsewhere charged to secure £1000 only. Policies originally for £1000 have already been increased to £1400, £1600, and even to £1800.

THE SOCIETY has, from an early date, taken a leading part in the relaxation of restrictions on Policies, and in the removal of all grounds of challenge. Policies are not rendered void by error in the original Statements by the Proposer or his Referees, unless proved to have been "*fraudulent as well as untrue.*"

FOREIGN RESIDENCE AND TRAVEL.

MEMBERS (not seafaring men) are free to travel or reside in any part of the World to the north of 35° N.—excluding Asia—and to the south of 30° S. Special arrangements may be made with such Members as, from their profession, are not in a position to benefit by these relaxations, or with those who require license for countries beyond the free limits. The payment of *extra* Premium secures, under the system of this Office, the important advantage of bringing the Assurance sooner to participate in the Profits.

Examples of Annual Premiums for £100 at Death (with Profits).

AGE.	25	30	35	40	45	50
Payable during Life,	£1 18 0	£2 1 6	£2 6 10	£2 14 9	£3 5 9	£4 1 7
Limited to 21 Years,	£2 12 6	£2 15 4	£3 0 2	£3 7 5	£3 17 6	£4 12 1

EXAMPLE.—A person aged 30 may assure £1000 at death (with right to Profits) by a yearly payment, during life, of £20, 15s. This Premium, if paid to any other of the Scottish Mutual Offices, would secure a Policy for £800 only instead of £1000.

OR, if unwilling to burden himself with payments during his whole life, he may secure the same sum of £1000 (entitled, of course, to Profits) by twenty-one yearly Premiums of £27, 13s. 4d., being thus relieved of payment before he has passed the prime of life, for a Premium nearly the same as most offices require during the whole term of life.

Above 17,000 Policies issued. New Business of 1867, £621,574. Subsisting Assurances, £6,000,000. Annual Revenue, £220,000. Accumulated Fund arising entirely from Premiums, above £1,360,000, all invested in unexceptionable securities.

THE CAPITAL of the Company is Two Millions, of which £390,000 is paid up and Invested; and in addition there are Reserve Funds, which, independently of the Life Reserve, amount to £1,000,000.

FIRE INSURANCE.

The Premiums in 1866 exceeded £818,000, and were greater than those of any other Company by upwards of £300,000.

Insurances of every description, both HOME and FOREIGN, effected at Moderate Rates. No charge for Policy Stamps.

LIFE INSURANCE.

The Premiums received in 1866 were £254,397, and the Annuities paid amounted to £40,763. The Fund accumulated to meet these Liabilities is £1,856,493. The Liability of Proprietors is unlimited.

BONUSES on Life Policies are GUARANTEED when the Insurance is Effected. Claims paid in THIRTY DAYS after admission.

THE ANNUITY Rates are extremely liberal, and every facility given to Purchasers as to place and time of payment.

CLAIMS UNDER POLICIES have at all times been properly adjusted and paid and in the course of thirty-one years have exceeded FIVE MILLIONS AND A HALF STERLING. This test, and the present revenue, are conclusive evidence of the satisfactory way in which the business of the Company is conducted.

Prospectuses and full information may be obtained at the Offices of the Company, or from any of the Agents.

THE SCOTTISH AMICABLE.

CAPITAL SUMS ASSURED, ACCUMULATED FUNDS, ANNUAL INCOME, NUMBER OF POLICIES,
£5,000,000. £1,200,000. £200,000. 11,000.

THIS LIFE ASSURANCE OFFICE being purely **MUTUAL, the WHOLE PROFITS BELONG TO THE ASSURED.** The Society has endeavoured to place its Rates and Rules on the most equitable and liberal footing; and its affairs are administered by Directors whose interests are identified with those of the Assured.

The Bonus declared by the Society, as at 31st December 1853 and 1860, has been so high as at the rate of £1, 15s. for each year, for every £100 assured, not only on the original sum in the Policy, but also on Additions which are accumulated at each Septennial Investigation. And the practice of the Society is to provide for Members, dying between the Investigations, similar Additions at the rate of $1\frac{1}{2}$ per cent.

Another Investigation takes place as at 31st December 1867; and it was stated by the Chairman at the recent Annual Meeting that there is every reason to anticipate that a Bonus of at all events £1, 10s. per cent. per annum will be declared both on original sums Assured and previous Additions.

RATES ADVANTAGEOUS FOR ADVANCED LIVES.—The Rates charged by this Society at advanced ages are greatly less than those of other Offices generally; the SCOTTISH AMICABLE Rate at age 60 being so much as 18 per cent. less than that of some other Offices. The Directors of the Society undoubtedly exercise great caution in accepting such Lives to see that they are very select; but, this being attended to, it is considered that, coupled with the system of allocation of Additions, according to the result of the careful investigation into the mortality of select lives, made by the Manager at various times, the Rates at all ages—say at 20, 40, and 60—are duly proportioned according to the risks run. And it does not require to be pointed out that, while these Rates continue, it is to an office such as this that select Advanced Lives should make their Proposals. The following are the

Annual Life Premiums for £100 at Ages 51 to 60 under Class with Additions, and also under Minimum Premium Class, referred to below:—

Age next Birthday.	Class with Additions.	Minimum Premium Class.	Age next Birthday.	Class with Additions.	Minimum Premium Class.
	£ s. d.	£ s. d.		£ s. d.	£ s. d.
51	4 12 0	3 13 7	56	5 8 10	4 10 0
52	4 15 0	3 16 3	57	5 12 11	4 14 0
53	4 18 2	3 19 6	58	5 17 1	4 18 1
54	5 1 6	4 2 9	59	6 1 7	5 2 6
55	5 5 1	4 6 4	60	6 6 4	5 7 2

ADVANTAGES HAVING SPECIAL REFERENCE TO YOUNG LIVES.—The Table of Rates for EDUCATION ASSURANCE, introduced by this Society, provides a means, at a very trifling cost, of securing for Children, in the event of the death of their fathers, Annuities till they reach the age of eighteen.

[Continued.]

The Scottish Amicable—continued.

By the Rules of the Society, the Assured are entitled, after five years' continuous residence in this country, to travel and reside in any part of the World without payment of extra Premium. Looking to the increasing facilities and requirements for travelling, what an advantage may it be to a young man to be possessed of a Policy under which, after five years' residence in this country, he might go anywhere without payment of extra Premium.

FAVOURABLE CASH VALUES ALLOWED FOR BONUS ADDITIONS.—This Office gives the full value which it sets aside to meet the Additions, while other Offices will make a deduction of from 10 to 20 per cent., if not more.

MODERATE ADDITIONAL RATES charged by the Society for TERMINATING or REDEEMING Premiums—the Additional Rates of some other Offices being from Fifty to upwards of One Hundred per Cent. more. It is for the interest of that intelligent and discriminating class who are likely to desire that their Premiums should soon terminate, to inquire into the Rates charged by this Office as compared with those of other Offices. The main cause of the difference is probably that the SCOTTISH AMICABLE assumes in the calculation a rate of 4 per cent. interest, while many other Offices maintain that no higher a price than 3 per cent. should be had in view. *N.B.—Tables and Rates supplied on application.*

MINIMUM PREMIUMS.—These are reduced to the "Minimum," or least possible, amount from commencement, by application of an estimated Bonus of 1½ per cent., according to the Society's mode of declaration. Any ascertained variation from this rate, the lowest experience by the Society, forms an addition to, or deduction from, the amount assured on its becoming a claim. This System of Minimum Premiums—believed to be the best economical adaptation of Life Assurance in use—was introduced to meet the convenience of that numerous class who desire to obtain, for such sums as they can devote from their income, the largest amount of immediate Assurance without subjecting themselves to a subsequent increase of their payments.

19 & 20 CORNHILL, LONDON.

Life Branch.—First Division of Profits.

THE Reserve provided for existing engagements is considerably in excess of that usually made by Assurance Companies, and is **15** per cent. more than if the calculations had been made by the Carlisle Table, which is generally used.

The rate of Interest assumed was only **3** per cent.

The **net** Premiums only were taken into calculation, and future Profits, therefore, have not been anticipated.

The value of the marginal Addition to the net Premiums, which has been reserved to provide for future expenses and profits, is **£118,936**.

Full particulars on these points are given in the Actuary's Valuation Report.

The following are specimens of the Bonuses declared :—

T A B L E

SHOWING THE APPROXIMATE AMOUNT OF BONUS UPON A POLICY FOR **£1000** EFFECTED IN THE YEAR 1863.

Age at Entry.	Present Age.	REVERSIONARY BONUSES.			
		Immediate.	Deferred.		
			Age.	Amount.*	
		£ s. d.		£ s. d.	
20	25	104 0 0	61	272 0 0	
30	35	104 10 0	64	259 0 0	
40	45	105 0 0	68	257 10 0	
50	55	110 0 0	71	253 0 0	
60	65	121 10 0	74	235 0 0	

* Payable, with the Sum Assured, provided the Life Assured attain the average expectation of Life of persons of his age at entry. By this plan, a large addition will be made to the Policy at each successive Division.

The Bonuses thus average over **2** per cent. per annum on the sum assured, and upwards of **65** per cent. on the Premiums paid.

The LIFE BRANCH has obtained a larger amount of business during its first period than that transacted by any other Life Office, established since 1824, during the first 6 years from its formation.

The LIFE FUNDS are, by Deed of Settlement, accumulated and invested in special trust for the security of Life Policyholders, and are not liable for any other branch of the Company's operations. The Policyholders, in addition to these Funds, have the security of **£250,000** paid-up Capital, and **£2,250,000** subscribed Capital.

Manager—ANDREW PATERSON, C.A., 55 Frederick Street.

Law-Agents—MURRAY, BEITH, & MURRAY, W.S., 43 Castle Street.

Auditor—THOMAS MARTIN, C.A., 49 Castle Street.

DEPOSITS AND DEBENTURES.

THE ASSOCIATION receives Money on DEPOSIT or DEBENTURE BOND, at Rates varying from 3 to 4½ per cent., according to the market value of money at the time. If preferred, a uniform Rate of Interest will be given on Deposits for fixed periods of from one to five years, on terms to be arranged. The Debenture Bonds will be granted for three, five, or seven years.

SAFETY OF DEPOSITS AND DEBENTURES.

The ASSOCIATION lends its Funds on HERITABLE PROPERTY *only*, and at rates corresponding to the market value of money. All the Loans are repayable by Instalments, which adds greatly to their safety, any depreciation which might take place in the value of the security being more than met by the gradual diminution of the Loan. The risk arising from the Investments of the Company is thus small, and they are enabled to give comparatively high rates for Deposits. In addition to the fact that the Loans are all secured on Heritable Property *only*, Depositors have the *farther guarantee of the Company's large subscribed Capital.*

LOANS.

Loans are granted on Security of Land, Houses, and every description of Heritable Property.

The Loans are repayable in periods of from four to sixteen years. If desired, *part only* may be made repayable by instalments—the remainder bearing interest, payable half-yearly.

Borrowers can pay off their Loans at any time, either in whole or in part; or the period of repayment can be altered to one more suitable.

THIS COMPANY has had its powers *amended* and *enlarged*, under the Act 23 and 24 Vict. (23d July 1860), and is now ready to negotiate LOANS, Repayable by Yearly or Half-yearly Instalments, during any period not exceeding Twenty-five Years—to be applied for any of the following purposes:—

1. THE DRAINAGE OF LAND.
2. THE IRRIGATION AND WARPING OF LAND.
3. THE EMBANKING OF LAND, from the Sea, Rivers, Lakes, and Streams.
4. THE ENCLOSING AND DIVIDING OF LAND, AND THE MAKING AND STRAIGHTENING OF MARCHES, BY WALLS, HEDGES, OR DYKES, AND BY IRON OR WIRE FENCES, OR OTHERWISE.
5. THE IMPROVING OF DRAINS, STREAMS, OR WATERCOURSES OF LAND.
6. THE RECLAMATION OF LAND.
7. THE MAKING OF PERMANENT FARM ROADS, *and Permanent Tramways and Railways.*
8. THE CLEARING OF LAND.
9. THE ERECTION OF FARM HOUSES, and other Buildings required for Farm purposes, and the Improvement of, and Additions to, Farm Houses and other Buildings, for Farm purposes, already Erected, so that such Improvement or Additions be of a permanent nature, TO THE WHOLE EXTENT OF THE EXPENDITURE.
10. THE PLANTING FOR SHELTER, or for any Beneficial Purpose.
11. THE CONSTRUCTION OR ERECTING OF ANY ENGINE-HOUSES, Water Wheels, Saw and other Mills, Kilns, Shafts, Wells, Tanks, Reservoirs, Dams, Leads, Pipes, Conduits, Watercourses, Bridges, Weirs, Sluices, &c., for Agricultural purposes.
12. THE ERECTION OF ENGINES OR MACHINERY in connection with Improvements in Drainage or Irrigation.
13. THE CONSTRUCTION OR IMPROVEMENT OF JETTIES OR LANDING PLACES on the Sea Coast, or on the Banks of Navigable Rivers or Lakes, for the Transport of Cattle, Sheep, or other Agricultural Stock and Produce, and of Lime and Manure, and other Articles and Things for Agricultural and Farming purposes.

The Company is empowered to transact with every Landowner, being “a fiar, liferenter, heir of entail, heir-apparent or disponee, or having a limited but not less than a life interest in the land; and the husband, tutor, curator, or other guardian or trustee of any such person, and every trustee having or acting for, or representing a person having a like interest in the land, which person respectively shall be in the actual possession of the land, or in receipt of the rents payable on the tacks, leases or tenancies of the tenants in the actual possession thereof.”

Information will be afforded, and Forms supplied, on application to the Manager, or to the Secretary, at the Office of the Company, 20 HILL STREET, Edinburgh.

THE LANDS IMPROVEMENT COMPANY.

INCORPORATED BY ACT OF PARLIAMENT.

3 PARLIAMENT STREET, LONDON, S.W.

To Landowners, the Clergy, Solicitors, Estate Agents, Surveyors, &c.

THE COMPANY ADVANCE MONEY, UNLIMITED IN AMOUNT, for the following Works, the *whole* Outlay and Expenses being liquidated by a Rent-charge for a term varying from Fourteen to Twenty-five years, according to the desire of the applicant:—

1. **THE DRAINAGE OF LAND**, and the Improvement of the Drains, Streams, and Water-courses of any Land.
2. The Irrigation and Warping of Land.
3. The Embanking of Land from the Sea or Tidal Waters, or from Lakes, Rivers, or Streams, in a permanent manner.
4. **THE ENCLOSING OF LAND**.
5. The Reclamation of Land.
6. The making of permanent Farm Roads and permanent Tramways, and Railways for Agricultural or Farming purposes.
7. The Clearing of Land.
8. **THE ERECTION OF FARM-HOUSES**, and other Buildings required for Farm purposes, and the Improvement of and Additions to Farm-Houses and other Buildings for Farm purposes already erected, so as such Improvements or Additions be of a permanent nature.
9. The Planting for Shelter, or for any beneficial purpose, which will increase the permanent value of the Land.
10. The Constructing or Erecting of any Engine-houses, Water-wheels, Saw and other Mills, Kilns, Shafts, Wells, Tanks, Reservoirs, Dams, Leads, Pipes, Conduits, Watercourses, Bridges, Weirs, Sluices, Floodgates, and Hatches, for Agricultural or Farming purposes.
11. The Erecting of any Engines or Machinery of a permanent nature, so as the same be erected in connection with, and in the effecting of, any Works of, or Improvements in, Drainage or Irrigation.
12. The Construction or Improvement of Jetties or Landing-places on the Sea Coast, or on the banks of Navigable Rivers or Lakes, for the transport of Cattle, Sheep, and other Agricultural Stock and Produce, and of Lime, Manure, and other articles and things for Agricultural and Farming purposes.

The large Agricultural Powers of the Company's Acts comprise all which can be required by the most improving Proprietor or Tenant; and the privilege offered to two or more Landowners, of combining in an Application for the Execution of Works mutually beneficial—such as a common outfall, &c., road, or railway—is undoubtedly worthy of attention.

The Company have power to make Contracts with all Public Bodies who have Parliamentary authority to execute Works and levy Rates.

The Company, being of a strictly financial character, do not interfere with the Plans and Execution of the Works, which are controlled only by the Government Enclosure Commissioners.

Under the Company's Acts, **HEIRS OF ENTAIL**, Liferenters, Trustees, Tutors, Curators, Bodies Corporate, and other Landowners with limited powers, as well as Fee-simple Proprietors, can charge their Estates, and *Clergymen their Glebes*, with the *whole* cost of the above Improvements.

The attention of Proprietors of **ENTAILED ESTATES** is specially directed to the advantages offered by the Company, as being greatly preferable to the cumbrous system under the Entail Acts, and the Works authorised are much more extensive.

The **RENT-CHARGE** for 25 years, to repay *capital* and *interest*, is £6, 14s. per cent. per annum.

For further information, and for forms of application, apply to **GRANVILLE R. RYDER, Esq.**, Managing Director, No. 3 Parliament Street, London, S.W.; or to

Messrs HUNTER, BLAIR, & COWAN, W.S., No. 7 York Place, Edinburgh, the Company's Agents for Scotland.

High School of Edinburgh—continued.

The High School System, as now amended, is as follows :—

1. The Curriculum extends over Six Years.
2. A Class, when formed, is taught by the same Classical Master for four Years, and is then transferred for Two Years to the Rector ; but during the Fifth Year of the Course the Greek Division of the Class remains under the Tuition of its original Master.
3. Classics Maintain that prominent place which their great importance demands.
4. English forms a distinct Department, under the charge of two masters, who carry out a Systematic Course of Training in all the Classes.
5. In the Department of Modern Languages, the great aim of the Masters is to impart to the pupils readiness, not only in Translation, but also in Conversation and Correspondence.
6. Mathematics and Arithmetic are assigned to one Master, *with a highly-qualified Assistant*, in order that each subject may receive the undivided attention of its proper Teacher, and that more ample opportunities may be afforded for the study of the several branches of Applied Mathematics.
7. A Course of Botany and Natural History is attended by the Junior Pupils, and of Natural Philosophy, Chemistry, and Physiology by the Senior Classes.
8. Quarterly Examinations by written papers have been organised, and are conducted regularly in all the Classes.

In consequence of these arrangements, and of the additions lately made to the Staff of Teachers, the High School is now able to furnish systematic instruction in all those branches of knowledge which constitute a course of liberal education, preparing alike for the English, Scottish, and Irish Universities ; for the Military, Naval, and Medical (preliminary) Examinations ; for the Indian and other Civil Service Competitions ; and for Commercial pursuits.

In distributing the time allotted to the various Departments, care has been taken that, while the efficiency of the School as a Classical Seminary of the highest order is fully secured, every facility is at the same time given for the study of the other subjects included in the Course.

Prospectuses, containing full details as to System, Books, Fees, &c., may be had on application to the Rector, or any of the Masters ; to the Janitor at the School ; to the City Clerk, City Chambers ; or to the principal Booksellers in Edinburgh.

FULFORD FIELD HOUSE

Is pleasantly situated One Mile from York. The Residence is well adapted for its purpose, on account of the salubrious Situation, extensive Playgrounds, and large and commodious Premises. The Pupils in this Establishment, in addition to sound mental culture, are instructed in every necessary accomplishment. It has during fifteen years been successfully conducted by

MRS ARMSTRONG,

Who is assisted by seven English and Foreign Resident Governesses. It has ample accommodation for Sixty Pupils: this having been about the number for some years, is of itself a sufficient guarantee that the arrangements of the School give universal satisfaction. Pupils are prepared for the Cambridge Examinations; those advanced receive lessons in the higher branches of English, and the accomplishments necessary for finishing education. References to the Parents of Pupils.

MISS BALMAIN'S PRIVATE ESTABLISHMENT

FOR THE

BOARD AND EDUCATION

OF

YOUNG LADIES,

14 HERIOT ROW, EDINBURGH.

GERMAN AND FRENCH CONVERSATION DAILY.

THIS Establishment is situated in the most healthy part of Edinburgh, having the beautifully laid out gardens of Heriot Row immediately in front, to which it has admission, and a fine open exposure behind.

The whole arrangements and studies are under the immediate personal superintendence of Miss BALMAIN, whose long experience in the Education of Young Ladies fully qualifies her to meet the expectations of those Parents and Guardians who may intrust their Daughters or Wards to her care. The number of young ladies received as Boarders being very limited, the most careful attention is paid to each in regard to health, moral and religious training, the preparation of their various studies, and their comfort in every respect. The first Masters attend to give instruction in all the branches of a thorough education and accomplishments. Lectures are attended; and Miss Balmain is assisted by Resident French, German, and English Governesses.

Prospectuses may be had on application to Miss Balmain.

YOUNG LADIES' DEPARTMENT.

The object of this Department is to afford Instruction to YOUNG LADIES in all the Branches and Accomplishments requisite in a liberal course of Female Education.

Lady Superintendent—Miss M'KAY.

The Course of Study embraces ENGLISH LANGUAGE and LITERATURE, ELOCUTION, COMPOSITION, HISTORY, GEOGRAPHY, FRENCH, GERMAN, MUSIC—Vocal and Instrumental, BOTANY, GEOLOGY, PHYSICAL GEOGRAPHY, NATURAL PHILOSOPHY, MAP DRAWING, WRITING, ARITHMETIC, DRAWING, GYMNASIC EXERCISES, and DANCING.

MR SCOTT'S PRIVATE CLASSES,

14 PICARDY PLACE, EDINBURGH.

THESSE CLASSES were originally formed for the purpose of meeting the views of those Young Gentlemen who wish to devote more time to French, German, Spanish, Portuguese, English Literature and Composition, History, Geography, Arithmetic, and Mathematics, than to the ancient Classical authors. The plan of instruction which has been adopted is eminently suitable for those who are anxious to prepare for Commercial Pursuits, Civil Engineering, and for the Army, Navy, and Civil Service. As the numbers are strictly limited, the Masters will be enabled to devote their attention to each Pupil in particular, thereby securing satisfactory progress in each department of Study.

The great success which has attended Mr SCOTT'S efforts in this direction, has encouraged him to extend his accommodation for these Classes, and to secure the Services of the best Masters. Pupils will have an opportunity of acquiring, from Lectures delivered throughout the Session, an intimate knowledge of the Literature of their own Language. In addition to the regular studies of the Classes, provision has also been made for a progressive course of Instruction in Physical Science. The principles of Natural Philosophy and Physiology are taught experimentally in Weekly Lectures, illustrated by a complete set of Apparatus and Diagrams.

OLD REMINISCENCES OF GLASGOW AND THE WEST OF SCOTLAND.

BY PETER MACKENZIE.

MR MACKENZIE, who was for many years Editor and Proprietor of the *Glasgow Old Loyal Reformer's Gazette*, has been earnestly requested by numerous friends to bring out a volume or two of his Reminiscences, from facts placed within his own knowledge, and never before published in any concise or authentic shape. He therefore intends to begin with the extraordinary History of the Spy System pursued in Glasgow in the days of Lords Sidmouth and Castlereagh, which he originally detected and brought to light many years ago, leading to the remarkable State Trials of 1819-20—to the dread Executions which then took place—to the *Exposé* of Richmond the Villain Spy—and to many other thrilling events; including some remarkable Trials in which Francis Jeffrey, James Moncreiff, Henry Cockburn, took part, with the present Lord President, &c.

From the Epitome of the Spy System he will go on to handle other topics—the materials and evidence concerning which are exclusively in his own possession; and being the oldest Newspaper Editor now alive in Glasgow, or in Scotland, he ventures somewhat hopefully to think that he will be able to make the work on which he has now entered peculiarly interesting to the present age.

SCOTICHRONICON.

Now Ready, profusely Illustrated, Vol. I.

BY THE REV. J. F. S. GORDON, D.D.,
ST ANDREW'S EPISCOPAL CHURCH, GLASGOW.

"Obviously the work will be of a useful and highly interesting character, and, when completed, will be one of the standard reference books of the day."—*Perth Advertiser*.

"The work will, in fact, be a vast storehouse of information on the ancient ecclesiasticism of Scotland, and in the division before us we have what may be reckoned a favourable specimen of what its successors will be."—*Morning Journal*.

"The first division of this elaborate work, which has been a long time in preparation, has just been published. It is full of ecclesiastical lore of all kinds. Dr Gordon has evidently brought a vast and quite unique amount of enthusiasm to his task."—*Citizen*.

"This most important and learned work is now being issued in quarterly parts, and no library, more especially those of clergymen, can be complete without having on its shelves this excellent work of Dr Gordon. As an antidote to the productions of literary charlatans on similar subjects the 'Scotichronicon' is invaluable."—*Press*.

SHANKS' PATENT LAWN MOWERS.

NEW HAND MACHINE.

A. S. & SON are the only firm out of all the other Exhibitors of Lawn Mowers at the Paris Universal Exhibition whom the Jury have deemed worthy to receive a Medal.

These Machines Mow the Grass, wet or dry, on Lawns uneven or otherwise, in a manner vastly superior to the Scythe, and at one-third the expense.

A. S. & SON have recently introduced into their LAWN MOWER valuable improvements, which give their Machine several important advantages possessed by no other Lawn Mower. These improvements will be apparent in the description.

In addition to making the Revolving Cutter self-sharpening, A. SHANKS & SON have made the Sole Plate or Bottom Blade of their Machine with *two edges*—one in front as usual, and one in reserve at the back—when the front edge gets worn down, the plate has only to be unscrewed and the unused edge brought to the front. It will be seen at a glance that this arrangement enables the cutting parts to last twice as long as in other Machines, where the single-edged sole plate must be entirely renewed when the edge is worn down. A. S. & SON have also introduced a Wind-Guard into their Machine for this season. Every gardener knows that in mowing during the prevalence of wind a considerable portion of the mown grass escapes the box and is thrown to one side. The Guard here referred to effectually prevents this occurrence.

SHANKS' IMPROVED WROUGHT IRON BOILER.

This BOILER for heating by Hot Water is made entirely of Wrought Iron, thus effectually preventing breakage from expansion and contraction of the metal. It is fitted with Tubes placed in the Fire Box, by which arrangement a very large effective surface is obtained.

Illustrated Circulars, with Prices, may be had on application. Plans and Estimates for heating by Hot Water, Vineries, Green Houses, Entrance Halls, Churches, &c., will be forwarded on application. A. S. & Son have special facilities for undertaking this class of work, and in all cases guarantee a satisfactory working Apparatus at a moderate cost. Plans and Estimates for Horticultural Buildings, in either Iron or Wood, forwarded on application.

THE CASSIOBURY FIRE EXTINGUISHER.

THIS simple, portable, and efficient Fire Engine has been specially designed for prompt application on the outbreak of Fire. It is intended that it should always be kept ready charged, for moving to any part upon the floor or building, where Fire may originate, and its advantages are so palpable that they need hardly be dilated upon. Nearly all Fires are trifling at their commencement, and confined to one spot, and it is to the want of some simple means for directing a jet of water at once upon such point, that Fire has time to extend itself, so as to be beyond the control of the most powerful Brigade Engines, which commonly have to be fetched from a distance, or which, even if at hand, take time to connect hose and get in order for a fair start.

Designed for the Right Hon. the Earl of Essex.

The great advantage of the Cassiobury Engine is, that it can be immediately brought to bear on any point with remarkable effect and precision, and will deliver a good volume of water 40 feet high, or 50 feet horizontally.

Its general usefulness for cleansing and watering purposes makes it a valuable acquisition to any establishment.

W. R. M. THOMSON & CO., 20 BUCHANAN STREET, GLASGOW, CONSULTING ENGINEERS AND PATENT AGENTS, beg to announce to Engineers, Inventors, Patentees, and others, that they execute all business connected with the obtaining of *British, Colonial, and Foreign Letters Patent for Inventions, the Registration of Designs, and all other Patent Agency Business, as well as the making out of Plans and Specifications of all kinds of Machinery, in the most correct and efficient manner, and at the lowest possible charge.*

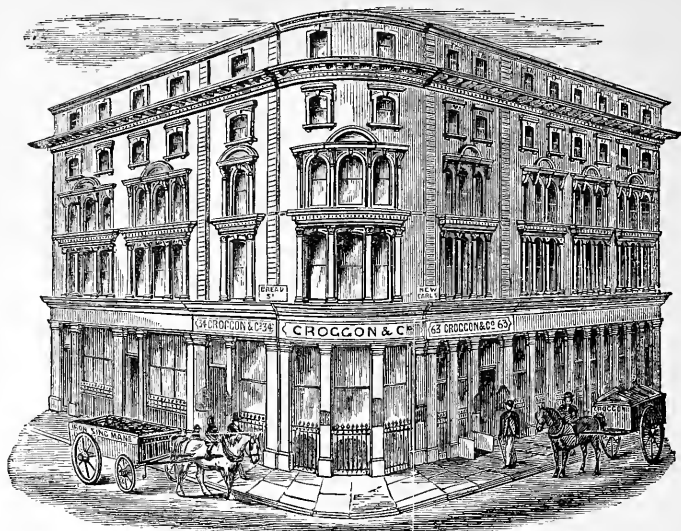

The extensive practical experience acquired by Mr W. R. M. T. as a Mechanical Engineer since 1833, and also as a Patent Agent, gained during the management of the Engineering and Drawing Department of the business of the late Wm. Johnson, Esq. (of the *Practical Mechanics' Journal*) since 1849, has given him such an intimate knowledge of most of the valuable Patented Inventions connected with Textile Manufactures, and Machinery of every description, as will enable him to give the most reliable opinions and advice as to the *novelty or validity of Patentable or Patented Inventions*, and also as to all *questions of infringements*. All business intrusted to the Subscribers will be executed in the most *careful and efficient manner*. Cost of Provisional Protection for British Patent, £8, 8s. Patent Complete, averages £33, 12s. more. Foreign Patents equally moderate.

Inventors at a distance can receive protection by furnishing a rough description of their Inventions, and have the necessary papers forwarded to them for signature, as well as by personal attendance.

All general information in reference to Patents given free on personal application, or by letter, when an addressed stamped envelope is inclosed.

The ARTIZAN MONTHLY ENGINEERING JOURNAL supplied, and all business for it in Scotland may be transacted through the Subscribers,

The FELT has been extensively used and pronounced efficient, and particularly applicable for warm climates—1. It is a non-conductor. 2. It is portable, being packed in rolls, and not liable to damage in carriage. 3. It effects a saving of half the timber usually required. 4. It can easily be applied by any unpractised person. 5. From its lightness, weighing only about 14 lbs. to the square of 100 feet, the cost of carriage is small. Under Slates in Church or other Roofs the Felt has been extensively used to regulate the temperature.

ASPHALT FLOORING is highly recommended for Stables, Byres, Barns, Cattle Sheds, Granaries, Cottar's Houses, and all kinds of Farm Buildings, on account of its being the most effective preventative to the ascent and spread of damp—its complete exclusion of vermin—its neat and cleanly appearance—its durability and cheapness in comparison with other descriptions of flooring and pavement—and its healthy and disinfectant properties. While it effects a great saving, by the exclusion of rats and smaller vermin, owing to the close texture of the Composition, without seam or joining, it keeps the Grain in a sweet state, from the entire absence of damp or moisture; and wherever the Asphaltic Flooring has been used, it has fully realised all the benefits held out by its adoption.

YUILLE'S ESSENCE OF COFFEE.

REPORT OF A CHEMICAL EXAMINATION OF "YUILLE'S ESSENCE OF COFFEE."

I HEREBY certify that I have made a careful, searching, and most exhaustive Chemical
Examination of YUILLE'S ESSENCE OF COFFEE. For several months past I have made repeated
analysis of the ESSENCE in all the stages of its preparation—from the very commencement of the
preliminary experiments for its manufacture to this time, when it is about to be sent into market.
I have no hesitation whatever in stating that I believe it to be the most concentrated that has yet
been prepared. The purity of the article is undoubted, and the proportion of aromatic principle
which it contains far exceeds that in any specimen I have yet subjected to analysis. The amount
required to make a cup of excellent Coffee is, in my opinion, less than that of other Essences of
Coffee. I can bear favourable testimony to the careful and exact manner with which it is pre-
pared, and I augur for it a large and ready consumption.

And 185 BUCHANAN STREET, GLASGOW.

Recommended by the London and Scottish Temperance Leagues, and by J. B. GOUGH, for
Excellence and Cheapness.

NEW WAVERLEY,

OLD POST-OFFICE BUILDINGS, WATERLOO PLACE, EDINBURGH.

R. CRANSTON has much pleasure in announcing to the Public that, in consequence of the continuous increase in his business, and the impossibility of acquiring additional accommodation adjoining the present Waverley in Princes Street, Edinburgh, he has leased from the Government those central and extensive premises lately occupied as the General Post-office.

No expense has been spared in altering, fitting up, and furnishing the New Waverley. R. C. has brought to bear the experience of a quarter of a century's hotel keeping in making the New Waverley all that can be desired for the comfort, convenience, and economy of his numerous friends who have so liberally patronised him in the years gone by. Special provision has been made for the accommodation of Commercial gentlemen. On the ground floor are several various-sized well-lighted stock rooms, with separate wide entrances for goods, at very moderate rates.

The large Sorting Hall of the late Post-office, suitable for Public Breakfasts, Soirees, and Meetings, has been altered and tastefully decorated, and made capable of seating 700 persons. Excursion Parties intending to visit Edinburgh, may arrange for Breakfasts, Teas, &c., at reduced rates, and the use of the Hall.

Plain Breakfast or Tea, 1s.; Dinner, 1s. 9d.; Bed, 1s. 6d.; Servants, 9d.

Agents—THE ABERDEEN LIME COMPANY, ABERDEEN.

THIS Food for Horses is the best system of feeding hitherto introduced, as proved by practical men. The animal gets the whole nourishment of all he eats, thrives, and keeps in better health than upon raw grain, and requires no other food but hay and water.

For Sheep and Cattle it is the best flesh and fat former, and requires no preparation. It is peculiarly adapted for Breeding Ewes, insuring vigorous health and a full flow of milk at the Lambing Season.

A genuine and well-prepared Meat Food for Poultry, Game, and Dogs.

Feeding Meal specially prepared for Dairy Cows; ditto for Calves; ditto for Stall-Feeding Cattle.

MEMORANDUM.

Champagne, and all other Sparkling Wines, should be laid down in a cool, well ventilated cellar, and allowed to repose some time before being used. It is the fashion at the French Court, and in the highest circles, to *decant* Champagne for the table. This, by allowing the superfluous gas to escape, brings out the full flavour, and reveals the real character of the Wine.

Clarets and Hocks ought also to be kept in a cool cellar, but Ports and Sherries mature best in a warm temperature.

Ice should not be used too freely with fine Wines, as at a very low temperature their flavour and bouquet are not emitted.

Two vols. small 8vo, price 7s.

Translated from the German by S. A. SMITH.

"The most truthful and beautiful representation of what married life should be that we have ever read. The story is laid on the borders of Prussia, and we are presented with a graphic picture of domestic life in that country, portrayed in every possible form, in the family, in society, in religion, &c. The gems of the book are the 'dear grandparents,' whose career we follow from their betrothal, through their whole whole life to their fiftieth wedding day. The portrait of the inner and outer life of this truly Christian pair cannot, we think, be exceeded."—*English Churchman.*

THE

“UNIQUE” SHIRT.

FOR Seventeen Years we have had the honour of supplying the “Unique” Shirt to all Classes of the community—from the man of rank to those who form the “bone and sinew” of the country—but by far the largest proportion to those who are known as “well-to-do” gentlemen.

This class being, generally speaking, business men, would be the last to continue the use of any article found unsuitable. Now, what is the fact with regard to the “Unique?” Orders of these business men have been renewed again and again, and we flatter ourselves that it would be no easy matter to persuade them to make a change.

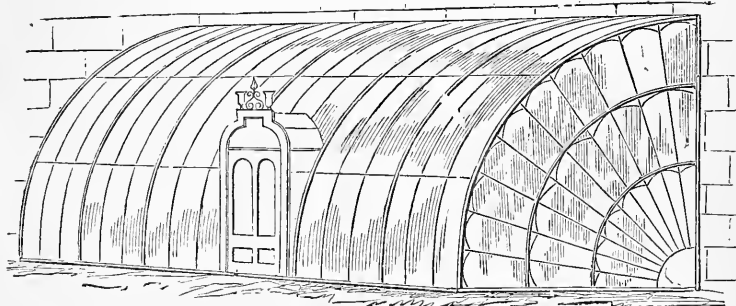

We are quite aware that when any Article is made so prominent as we have made the “Unique,” there is a strong tendency to scrutinise it in a tenfold greater degree than an article *not* so advertised. Need we say that, with this fact before us, the care in its production has certainly *not* been lessened? and the result of it all has been to give it a standing which, but for this ordeal, might have remained among the things which have only an ephemeral existence.

THE DOUGLAS HOTEL,

EDINBURGH.

THOMAS SLANEY, Proprietor.

THIS HOTEL, long patronised by the first families of Europe, has been considerably enlarged, and contains every comfort which a matured experience could suggest, with *all* the necessary appliances for the quiet and prompt management of so large an establishment.

The GREAT SALOON is considered the finest Room in any Hotel in the kingdom, and is available to those desirous of avoiding the expense of private apartments.

THE CUISINE AND WINES ARE UNEXCEPTIONABLE.

Table d'Hôte Daily. Dinners à la Carte.

Charges as moderate as those of Minor Establishments.

The Clarendon Hotel,

103, 104, & 105 PRINCES STREET,

EDINBURGH.

RICHARD MACMAHON, Proprietor.

Kennedy's Waterloo Hotel,

WATERLOO PLACE, EDINBURGH.

WILLIAM KENNEDY respectfully intimates that, on his relinquishment of the Ship Hotel, he has entered upon possession of this extensive and elegant Establishment (*formerly Rampling's*), which will be found unequalled in the City for situation, comfort, and accommodation, combined with Moderate Charges.

The Saloon Dining-Rooms are unsurpassed in Edinburgh for the ample and convenient accommodation they possess for large Dinner Parties or Public Meetings.

Superior Parlours suitable for smaller parties; Bed-rooms lofty, airy, and comfortable.

Excellent Accommodation for Commercial Gentlemen.

Commodious and Elegant Coffee-Room, and separate Smoking-Room.

An Elegant Saloon specially appropriated for Parties with Ladies, who desire to avoid the expense of a Private Sitting-Room.

A moderate fixed Charge for Servants.

TO THE

ROYAL BRITISH HOTEL,

22 PRINCES STREET, EDINBURGH,

Opposite the General Railway Termini,

HAS been added the NEW ROYAL HOTEL, thereby rendering the ROYAL BRITISH one of the Largest and most Comfortable Establishments in Scotland.

The Decorations and Furniture are all New, and of the most substantial and elegant design.

One of the principal Saloons, capable of accommodating 150 Ladies and Gentlemen, has been Fitted and Furnished in a style greatly superior to any Dining Room in this quarter, and will be found replete with all the Dainties of the Season (daily).

The respective Departments are Self-contained, so that FAMILIES, COMMERCIAL GENTLEMEN, and TOURISTS will, on trial, find this Establishment unequalled in Edinburgh.

The View from the New Oriel Windows of the Dining Saloon and Parlours is magnificent.

A Lofty and Elegant Smoking Room.

N.B.—A Private Coffee Room for Ladies and Gentlemen who wish to avoid the expense of a Parlour.

A TABLE D'HOTE DAILY.

Hot, Cold, and Shower Baths on the Shortest Notice.

N.B.—The CAFE ROYAL, West Register Street, is carried on by Mr GRIEVE as usual.

ROSS-SHIRE.

BALNAGOWN ARMS HOTEL, ARDGAY,

Immediately opposite, and within a minute's walk of the Highland Railway Co.'s Station, Bonar Bridge.

COLIN FRASER

Begs respectfully to intimate to the Nobility, Commercial Gentlemen, and the Public generally, that he is Lessee of the above Hotel. It has undergone extensive improvements—is thoroughly refurnished—and, as regards comfort and attendance, is in first-rate order.

C. F. hopes, by diligence and devoted attention to business, to merit a continuance of the patronage hitherto so liberally bestowed upon him.

The POSTING DEPARTMENT is of a superior description. Carriages, Dogcarts, Gigs, &c., with steady Drivers, to be had on the shortest notice.

Angling.—The Lessee has also the issuing of Tickets for the Fishings of the CARRON RIVER, which is known to afford first-class sport.

GELLION'S HOTEL, INVERNESS.

(Entrance both by Church Street and Bridge Street.)

JAMES CAMPBELL

Has much pleasure in announcing to his Friends and the Public generally, that he has taken a Lease of this famous old Establishment, where he intends to devote his energies for the comfort of the Travelling Public.

J. C. hopes, by diligence and devoted attention to business, to merit a continuance of the patronage so liberally bestowed on him while in the Muirtown Hotel, Caledonian Canal.

TERMS MODERATE.

N.B.—A Waiter in attendance on arrival of the Trains and Steamers.

CALLANDER.

DREADNOUGHT HOTEL.**D. M'GOWAN, Proprietor.**

THIS large and commodious Hotel, so long conducted by the late Mr M'Gregor, and which has recently undergone extensive alterations and improvements, is beautifully situated at the west end of the village, and commands a magnificent view of the Vale of Teith, Ben Ledi, and surrounding district, and is within a short distance of the Roman Camp, the Falls of Bracklin, Loch Vennachar, Loch Lubnaig, the Pass of Leny, Ben Ledi, &c., &c.

Tourists will find Callander very central for visiting those places mentioned in Sir Water Scott's "Lady of the Lake," viz., the Lake of Monteith, Clachan of Aberfoyle, Loch Ard, the Trosachs, Loch Achray, Loch Katrine, Strathyre, Clachan of Balquhidder (where Rob Roy M'Gregor is buried), Loch Veil, Lochearnhead, &c., &c.

STAGE COACHES

in connection with this Hotel and Mr Blair's Hotel at the Trosachs, run several times each day to suit the arrival and departure of Trains at Callander and Steamer on Loch Katrine; also, during the season, the

QUEEN OF BEAUTY

Stage-Coach starts from the Hotel for Lochearnhead, Killin, Kenmore, and Aberfeldy, every lawful morning at 10 o'clock. See *Time-Tables for May*.

Omnibuses run to and from each Train.

CRAMER'S THREE YEARS SYSTEM.

This method of obtaining a Pianoforte or Harmonium was originated by CRAMER & CO., by whom it has been carried out with very great success. The third year since the introduction of the system has now terminated, and the Instruments that were hired during the latter part of the year 1864 have become the property of their hirers. The quality of the Instruments supplied has been found so superior as to call forth the most flattering recommendations from all parts of the country, and the result has been encouraging in no ordinary degree. So greatly, indeed, have CRAMER & CO.'S efforts to supply Pianofortes and Harmoniums on easy terms of payment been appreciated, that they continue to send out a greater number of first-class Instruments than the aggregate of all those active and intelligent competitors who have adopted CRAMER & CO.'S system.

Are of the best manufacture, and are so *toned* as to be the most agreeable Drawing-room Instruments.

It may be particularly noticed that these Instruments are at the English Pitch, instead of the French, which is too flat to admit of the ordinary Paris Harmoniums being used with the Pianoforte; and also

that the various stops of the 'Cramer' Harmoniums are so distinctive in their effects as to preserve their individuality when used in the *grand ensemble*, approaching more nearly the effect of an Orchestra than has hitherto been attained.

JAMES MACKENZIE,
Dispensing Chemist,
49 GEORGE IV. BRIDGE,
EDINBURGH,

RESPECTFULLY calls attention to his improved and economical Inhalers, for the application of hot vapour or special medicinal preparations for inhalation in the successful treatment of **INFLUENZA, COUGHS, COLDS, CHRONIC BRONCHITIS, ASTHMA, HOARSENESS,**

AND ALL AFFECTIONS OF THE THROAT AND CHEST.

Inhalation has long been recognised as a valuable mode of relieving disease, and still continues to receive the highest medical support; but the want of suitable and inexpensive apparatus, together with proper preparations of medicines applicable for this purpose, have hindered its more general adoption.

J. M., having now succeeded in overcoming these difficulties, and the recommendation which his Inhalers have received, both from the medical profession and others who have used them, will, he trusts, be the means of still further extending their use.

For common Colds, where the simple use of hot vapour is so serviceable, or for special Inhalants prescribed by Physicians, these Inhalers are equally suitable.

THE IMPROVED ECONOMICAL INHALERS, 3s. EACH.

Also, a Variety of other INHALERS, from 4s. to 5s. each, kept in Stock.

ANODYNE, OR OTHER INHALANTS FOR ORDINARY USE, SUPPLIED IN VARIOUS SIZED BOTTLES.

MACKENZIE'S PEPSINE WINE,

FOR INDIGESTION AND IRRITABILITY OF THE STOMACH,

Prescribed and Recommended by the Principal Medical Practitioners in Edinburgh and throughout the Country.

The great advantage of this preparation is, that *Pure Pepsine* is presented in a most agreeable form, pleasant to the taste, and suited to the weakest stomach, while its action on the food assists the process of digestion, and under its use the functions of the stomach are restored to their natural condition. For Infants and Children it is also highly recommended, as it prevents their food from returning, and enables them to obtain the requisite nourishment from it.

This valuable natural Remedy has been *especially* recommended. See *Edinburgh Medical Journal* for Nov. 1853, where its preparation and excellence is described.

SOLD IN BOTTLES, 2s. AND 4s. EACH.

Physicians' Prescriptions dispensed with Great Care, and the Purest Drugs and Chemicals it is possible to obtain only used.

# DIAGRAM.

NUMBERS OUT OF WHICH ONE PERSON WILL DIE IN EACH YEAR.

The favourable Mortality experienced by the ROYAL is exhibited by the Diagram, which shows the NUMBER out of which ONE has died at each Age up to the end of the year 1864, compared with the NUMBER which had been EXPECTED by the Tables, and further contrasted with its Experience up to the end of 1859, and with the "Combined experience of Seventeen Offices."

"I CONFINE myself to the experience of the seventeen Offices published in 1843. A few words will suffice to show the particular and general adaptation of this figure to its intended purpose.

To exhibit the first of these qualities, let it be supposed that the enquirer wishes to compare the Mortality experienced by the respective Offices named on Lives aged 40 years.

By drawing his finger carefully along the horizontal line 40, to the points where the several curves cross the said line, and following with his eye the vertical line at those respective points to the top or bottom of the page, he will learn that

The "ROYAL" expected that 1 out of about 80 would die;  
 But, by adjusted experience to 1859, only 1 out of about 103 would die;  
 And by ditto to 1864 . . . . . 1 " " 104 would die;  
 Whilst by the combined experience . . . 1 " " 97 would die.

Little will be required to show the general adaptation of the Diagram to exhibit the success of the ROYAL in its Mortality, and the BENEFIT THUS OBTAINED by THE ASSURER WITH PARTICIPATION OF PROFITS in that Office. I refer here to the fact that every point on the left of the ○○○ curve, which it must be observed represents the Mortality expected by our Tables, shows more or less gain according as it is removed from or approaches thereto. Now, as the curve ◇◇◇ and the one painted red, respectively depicting the adjusted mortality of the ROYAL up to 1859 and up to 1864, are entirely on the left of the ○○○ curve, and some portions of them at a very marked distance, it is at once evident that everything in the PAST experience of the Company, as respects this important subject, has been more favourable than could have been reasonably hoped for."
